287.300

Dated 13 – 11 — 1866.

Not to be folded or roughly handled

Read the following Telegrams :—

No. 287. From Collector, Godavery, Cocanada, to Chief Secretary to Government, Madras, dated 12th November 1866.

Season Report.—Wholesale and retail prices have again risen to the rate obtaining a fortnight ago, owing to a demand for exportation to Colombo and the Mauritius. There has been very little rain in some parts of the district, in other respects same as last.

No. 288. From Collector, Masulipatam, to Chief Secretary to Government, Madras, dated 12th November 1866.

Season good, but wet and late dry crops require more rain. Prices stationary. Markets well supplied. Public health generally good. Jungle fever prevails in hilly talooks. Pasturage sufficient.

No. 289. From Acting Collector, Nellore, to Chief Secretary to Government, Madras, dated 12th November 1866.

Season unfavorable. Rain-fall none. The delta villages are, however, well supplied with water from the river. Prices rising. Markets moderately supplied. Public health improving. Pasture same as previously reported.

No. 290. From Collector, Cuddapah, to Secretary to Government, Fort Saint George, Madras, dated 12th November 1866.

Season continues very encouraging. Crops are all in good condition. No rain this week. Pasturage most abundant. Public health, cholera almost ceased. I continue to feed from 400 to 500 poor from private funds. The rest as before. A most valuable pill for cholera: Paterson's Pill without the opium, substituting chillies and cantharides. This is Iyasawmy, Native Surgeon's receipt. In this district it has had great success, hundreds have been cured by it. Prices increased on account of a great demand from Bangalore, but not materially.

No. 291. From Collector, Bellary, to Revenue Secretary to Government, Madras, dated 12th November 1866.

12th November.—Reports up to thirty-first from some talooks, and fourth and fifth from others. No rain except in Kudlighi, where the fall was heavy. It rained moderately in Tadputtry and Pengonda. Prices stationary in some places, and falling in others. Markets rather better supplied. Public health generally good, but cholera and fever prevail here and there. Pasture sufficient.

No. 292. From Collector, Kurnool, to Revenue Secretary to Government, Madras, dated 12th November 1866.

Reports the same as last week. Fever on the increase.

No. 293. From the Acting Collector of Madras, to the Secretary to Government, Revenue Department, Fort Saint George, dated Saidapet, 12th November 1866, No. 229.

1. I have the honor to submit a season Report for the past week.

2. There has been no rain in any part of the district during the week, and in the northern talooks the crops are beginning to suffer. In the Conjeveram,

Chingleput, Madurantakam, and Saidapet Talooks the cultivation is stated to be looking well. The floods in the Pálár at Chingleput and at Conjeveram have subsided. There is sufficient water throughout the district in the tanks and channels for immediate requirements. Rain, however, will be welcome in every quarter.

3. Prices are stationary. They will rise if the monsoon holds off much longer.

4. The markets are tolerably supplied. During the week 191 bandy-loads of rice and nine of paddy have passed through the Saidapet toll bar. One hundred bandy loads of rice have come into Madras from the Ponneri Talook. Ninety-two garce of paddy have been received by the Northern Canal.

5. The district is almost free from sickness. Pasture is everywhere abundant.

No. 294. From Collector, North Arcot, Chittoor, Vellore, to Revenue Secretary to Government, Madras, dated 13th November 1866.

Season continues favorable. Rain-fall, no rain during week, clouds rolling up from north-east during last two days. Prices as in last week. Markets well supplied. Public health not so good. Cholera in several parts of Gooriauthum, Polur, and Vellore Talooks; fever in more hilly ranges. Pasture abundant.

No. 295. From Collector, South Arcot, Cuddalore, to Revenue Secretary to Government, Madras, dated 12th November 1866.

Season promising. Rain-fall insufficient. Prices nearly stationary. Markets ill-supplied. Public health good, but cholera still prevails in parts of the Tindevanum and Cuddalore Talooks. Pasture sufficient, but cattle disease has not wholly disappeared.

No. 296. From Collector, Tanjore, to Chief Secretary to Government, Madras, dated 12th November 1866.

Season Report for the week ending 10th of November.—Season not so promising as heretofore. Rain much wanted. Rain-fall deficient and partial. Prices stationary and very high. Markets well supplied. Public health good. Pasture sufficient for the present.

No. 297. From Collector, Trichinopoly, to Chief Secretary to Government, Madras, dated 12th November 1866.

Season promising altogether. Rain-fall just now urgently needed. Prices firm at exorbitant rates. Supply good, and exportation daily going on. Health tolerably good. Pasture abundant.

No. 298. From Collector, Salem, to Revenue Secretary to Government, Madras dated 12th November 1866.

Season good. Rain-fall very slight during the week. Prices, slight fall Markets moderately supplied. Health indifferent. Pasture sufficient.

Proceedings of the Madras Government, Revenue Department,
13th November 1866.

No. 299. From Collector, South Canara, Mangalore, to Chief Secretary, Madras, dated 12th November 1866.

Season favorable. Rain-fall none. Prices declining. Markets well supplied. Health generally good. Pasture abundant.

No. 300. Order thereon, 13th November 1866, No. 3,083.

Miscellaneous.

1. Ordered that the foregoing telegrams be recorded.
2. Referring to the telegram from Cuddapah, the Collector is requested to obtain and forward the Native Surgeon's prescription, mentioned by him as so successful.

(True Extract.)
