Dated 6 - 2 - 1866.

Not to be folded or roughly handled

No. 104. Read the following Proceedings of the Board of Revenue, dated 17th January 1866, No. 410A.

1. The Board resolve to submit to Government their usual Budget Estimate of receipts and charges on account of the several Local Funds for the ensuing official year 1866-67. These Budgets have been prepared according to the new forms, as directed in paragraph 6 of the Order of Government, Department Public Works, dated 4th October 1865, No. 2,919.

2. Statement No. 1 exhibits in one view the estimated receipts and charges on account of the District Road Fund for 1866-67. Under the head of Receipts, the Collectors of the Godavery and Kistna Districts have estimated the sums noted in the margin on account of fees for licensing boats on canals; but these sums have been excluded from the Estimate, as such collections are in future to be credited to the Imperial Revenues, with reference to the Proceedings of Government, dated 19th October 1865, No. 2,556. The Collector of the Godavery District has, on a reference being made, mentioned what reduction should be made in the total amount of charges entered in his Budget; but the Collector of Kistna not having given similar details, the Board are obliged to reduce the amounts provided for the original works, noted in the margin, to the extent of Rupees 8,000.

Do. from Guntur to Pedagarala and from Dachapulli to Timmercottah	4,000	2,000
	14,000	6,000

3. Besides the reductions referred to above it was found further necessary to reduce the total estimated expenditure in the Kistna District, as it was in excess of the anticipated receipts. To bring it within the estimated receipts, the Collector's provision of Rupees 4,900 on account of repairs to minor works has been cut down to Rupees 3,000.

4. The Collectors of the Districts noted in the margin made no provision on account of the reserve at ten per cent. on the estimated income. The Collector of Malabar remarks, that as it is expected that the amount estimated for 1865-66 will be available to meet any emergency in 1866-67, no provision was made for this purpose. This being, however, a mis-

apprehension of the Budget Rules, on the part of the Collector, the Board have provided ten per cent. of the estimated receipts on account of reserve for the two Districts, and reduced the expenditure on works proposed by the Collectors, both under original works and repairs, as particularized in the margin. The provision of Rupees 7,780 made by the Collector of Malabar for certain public bungalows and halting sheds has properly no place in the Local Fund Budget. If the surplus at the end of the current year is larger than anticipated in the present Budget Estimate, the Collector will be at liberty to bring forward supplemental proposals for employing it.

5. The Collectors of the Godavery and Kurnool Districts not having provided exactly ten per cent. on the estimated receipts on account of reserve, the necessary alteration has been made in this Office.

6. On examining the Budgets received from the Collectors, it was observed that in the Districts of Tanjore and Salem the cost of works proposed exceeded the estimated receipts to the extent marginally indicatad, and the Board have therefore altered the proposed expenditure in these Districts, so as to bring it within the estimated receipts. The sums struck out in these two Districts are shewn in the margin. In Salem, however, a sum of Rupees 8,995, being rent from palmyra trees, which the Collector observes will be realized in the current year, has been included in the balance at the beginning of 1866-67.

7. In Kurnool, Madras, and Malabar, larger provision has been made by the Collectors on account of Public Works supervision than is actually necessary; while the Collector of Salem has made no provision whatever for the purpose, although works estimated to cost Rupees 2,460 are to be executed by that Department. These inaccuracies and omissions have been rectified and supplied by the Board.

8. Parts II. and III. of the Budget, which shew the particulars of estimates for works to be executed from the District Road Fund are prepared in the form furnished by the Department of Public Works. In Part II. the original works proposed to be executed during the ensuing year are entered in detail, and for some of the works entered in this Statement, plans and estimates have been received from the Collectors of the Godavery, Vizagapatam, and Malabar Districts. These will

be submitted separately for the sanction of Government, as their cost exceeds 2,000 Rupees.

9. Part III. exhibits the amount required for repairs in each District. In the Budgets received from some Districts, certain sums are estimated for sundry items and Miscellaneous charges, and these are shewn as such in the Estimate for repairs now submitted, the former having been entered under the head of Miscellaneous Public Improvement.

10. The marginal Abstract exhibits the entire expenditure proposed from the District Road Fund to be executed both by the Public Works and Revenue Departments respectively.

11. It will be seen that the entire expenditure proposed is Rupees 7,23,652, of which the amount to be spent on original works and repairs by the Public Works and Revenue Departments is Rupees 6,07,982, as particularized in the following Abstract:—

13. The Estimate of receipts and charges on account of funds other than the District Road Fund are entered in Statement No. 2, and is, as usual, submitted for the information of Government. In the Kistna District the estimated receipts on account of Jungle Conservancy Fund in 1866-67, inclusive of the balance at the beginning of the year, amounts to Rupees 14,768; but the Collector proposed a very small expenditure of Rupees 2,500; it has been increased to Rupees 12,500. In Malabar, a balance of Rupees 10,021 is estimated at the beginning of next year on account of the same fund, which is believed to be derived from avenue clippings &c.; but the Collector estimates neither receipts nor charges, and a sum of Rupees 12,000 has, therefore, been provided by the Board for expenditure next year. The Collector of both Districts will be requested to state how they would employ these sums. The Collector of Malabar will also state why he has estimated neither receipts nor charges on account of Jungle Conservancy Fund for the next official year.

14. The Board regret the delay that has taken place in the submission of these Estimates which was caused by a reference to Nellore, the reply to which was received only on the 3rd instant.

No. 105. ORDER THEREON, 6th February 1866, No. 318.

Local Funds, No. 6 *Accounts.*

1. With their Proceedings above recorded the Board of Revenue submit the Budget Estimates of Receipts and Charges on account of the several Local Funds for the year 1866-67.

2. DISTRICT ROAD FUND.—The receipts under this head are estimated at Rupees 6,20,000, and with the balance of Rupees 1,40,740, expected to remain at

the commencement of the year, the amount available for expenditure during the year will be Rupees 7,60,740.

	Rs.
New Works	3,13,012
Repairs	2,94,970
Establishments	53,682
Reserve	61,988
Total	7,23,652

3. The expenditure proposed out of the above sum amounts to Rupees 7,23,650, as per particulars given in the margin, and the several Budgets comprising this sum have the general approval of Government. They will be transferred to the Public Works Department for incorporation with the "Local Funds Budget." The list includes, however, several works which have not received the specific sanction of Government according to the rules laid* down. The estimates for such should be submitted separately with all the necessary information, and the general approval of their entry in the Budget is not to be considered sufficient authority for commencing the works.

* Proceedings dated 4th March 1864, No. 392.

4. In the allotment of the expenditure on the several works, the principle that works already commenced should be completed before new works are undertaken, does not appear to have been followed, so closely as is advisable, and the sums proposed to be spent on several are so small relatively to the estimates, that several years will elapse before the works are completed. The most striking instances of this description are specified below :—

No. of the item.	Amount of estimate.	Contemplated expenditure up to 30th April 1866.	Estimate for 1866-67.
	Rs.	Rs.	Rs.
11	25,000	3,000	4,600

34	32,000	3,000	3,000
36	11,450	2,000	2,500

65	22,700	7,000	5,200
88	22,413	.....	5,000
99	30,370	.....	4,000

More liberal assignments should be provided in cases of this nature.

5. The Government observe also a tendency to propose projects of a more expensive character than the resources of the Fund render expedient.

6. The Government do not understand how the cost of constructing a Mill, to be worked by a water-wheel, at Needoomole (Item No. 103) can be charged to the District Road Fund. The Board of Revenue will be requested to submit an explanation on the subject, pending which the entry will be disallowed.

7. The provision made for digging wells and tanks for drinking purposes amounts to Rupees 3,350, and the Government have no objection to the expenditure on the condition that the inhabitants make an equal contribution. This principle has already been laid down in the case of contributions for removing prickly pear and for other Municipal improvements, and it should be strictly adhered to.

8. The Government observe several large sums entered in Part III. (Repairs) of the Budget under "Miscellaneous Charges" and "Miscellaneous Improvements." The Board of Revenue will ascertain the particulars of these, and satisfy themselves that the expenditure is such as should be met from the "District Road Fund."

9. The estimated receipts and charges on account of the other Funds noted in the margin are passed. The Government have only to remark that the available sum under Jungle Conservancy Fund should be utilized as much as possible.

10. The Government must request the Board to insist upon greater punctuality in the submission of the District Budgets.

11. With these remarks the Government resolve to furnish the Accountant General with copies of the several Budgets.

Part III
Detail of Estimate
for Repairs for 1866-67.

Revenue Department.

No. 318.

Proceedings of the Madras Government

Under date the 6th February 1866.

Read the following Proceedings of the Board of Revenue.

Submitting Budget Estimates of Receipts and Charges on account of the several Local Funds for 1866/67.

(Here enter 1st Class/66)

With their Proceedings above recorded the Board of Revenue submit the Budget Estimates of Receipts and Charges on account of the several Local Funds for the year 1866/67.

2. The receipts under this head are estimated at Rs. 620,000 and with the balance of Rupees [illegible]

District Road Fund.

For

to remain at the commencement of the year the amount available for expenditure during the year will be £24,760,340.

The expenditure proposed out of the above sum amounting to £24,723,650 as per particulars given in the margin and the General Budgets comprising this sum have the general approval of Government.

They will be transferred to the Public Works Department for incorporation with the Local Fund Budget. The list includes however several works which have not received the specific sanction of Government and according to the rules laid

New works	£4
Repairs	318,012
Establishments	294,970
Reserve	53,682
	61,988
Total	723,652

1892 Rs 3/2

each should be submitted separately with all the necessary information and the general approval of Government in the Budgets is not to be considered sufficient authority for commencing the works.

In the allotment of the Expenditure on the several works the principle that works already commenced should be completed before new works are undertaken does not appear to have been followed, so closely as is advisable, and the sums proposed in the Budget are several lakhs of Rupees in excess of the probable requirements relating to the Estimates during several years will elapse before the works are completed. The most striking instance of

water-which the Feeder (Item No. 103) can be charged to the Direct Road Fund. The Govt. of Bo. will be requested to declare in application on the subject - stating which the entry will be established.

7. The procedure made for shipping wool and tools for domiciling four years amounts to Rs. 3,350, and the Govt. have no objection to the appropriation that the sum be debited to the Govt. of India

8. The Govt. observe
several large increase-
ments in Part III (Re-
pairs) of the Budgets under "Miscellaneous charges" and "Miscellaneous Im-
provements". The Bd
of Revenue will ascer-
tain the particulars of
these and satisfy them-
selves that the Expendi-
ture is such as should
be met from the "Ordi-
nary Road Fund".

9. The estimated re-
ceipts and charges on
account of the other funds
noted in the margin are
passed. The Govt. have
only to remark that the
