704-705

Dated 29 - 11 — 1866.

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department,
29th November 1866.

No. 704. Read the following Proceedings of the Board of Revenue.

Read the following :—

Season Report of the Salem District for the fortnight ending 15*th November* 1866.

Except a few drops here and there, there was no fall of rain during the fortnight. Rains for Punjah crops are very much needed, and the supply of water in the tanks is fast diminishing.

2. Nunjah lands have all been nearly sown, and the existing Punjah crops are beginning to fade away in several places. Except in Ahtur and Namkul cumboo and raggy have been harvested during the fortnight all over the district, and the yield is said to be from one-half to three-fourths of the average yield. In Tripatore and Dharampury there was some harvest of the Nunjah crops. Both the Punjah and Nunjah crops harvested are those which were sown early.

3. Prices are again rising in some of the talooks, while in others they are almost stationary.

4. Public health has, on the whole, been good, and cattle have been free from disease. Pasture and water are plentiful.

(Signed) D. ARBUTHNOTT,
Collector.

SALEM,
19*th November* 1866.

1. Submitted for the information of Government.
2. Copy to the Relief Committee.
