No. 344.

Season Report from 1st to 15th November 1866.

1. Rain.—No heavy rain fell in any part of the district, except in the western side of Poloor Talook. The Cheyar river flooded largely during twenty-four hours, and filled some tanks which had not received their complement of water.

In Poloor Talook the oil seed and samba paddy are affected by insect, and blight to some extent. In dry crop samalu is being cut, and carr paddy in wet. Outturn three-fourths of an average yield.

3. Prices.—Export to Madras and Bangalore very active ; prices somewhat risen.

4. Public Health.—Cholera prevalent again in parts of the Vellore, Poloor, Chendragherry, and Gudiattam Talooks ; fever general in parts of the Vellore and hill tracts.
