Proceedings of the Madras Government, Revenue Department,
11th December 1866.

No. 125. Read the following Proceedings of the Board of Revenue, dated 28th November 1866.

Read the following:—

Season Report for the fortnight ending 15th November 1866.

1. There was no rain during the past fortnight, but agricultural operations are in progress. The early crops are healthy, while the later cholum crop, paddy, horse-gram, and other grains are being sown. Cumboo and other grains are being reaped. Another fall of rain is necessary for the horse-gram and other crops in the Talook of Raidrug.

2. There is little disease at present in the district, except in a few of the villages of the Talook of Alur, where fever is said to be very prevalent. Cattle are reported to be free of disease.

3. In the reports from three Tahsildars, distress is still said to prevail, though it is to a very great extent alleviated by Famine Works and Relief Houses. Prices are still high; but supplies are being brought in from Dharwar, Cuddapah, Bangalore, and other places. Cotton is being exported. There is no want of pasture.
