Having lately had an opportunity of inspecting an illustrated work upon the flowers and fruits of Java by Madam Bertha Van Nooten, published under the auspices of the Queen of Holland, I made a list of a few of the rarer plants, which we do not possess in our gardens, and beg to suggest that the Government of the Dutch Netherlands be solicited to transmit to Madras a wardian case containing these novelties. A packet of seed would also be useful, the best time for cases to arrive at Madras is from December to February.
