*Proceedings of the Madras Government, Revenue Department,
8th March 1866.*

No. 144. Read the following letter from the Receiver of the Carnatic Property, to the Secretary to Government, Revenue Department, Fort Saint George, dated Madras, 6th March 1866, No. 38:—

1. I do myself the honor of acknowledging the receipt of the Proceedings of Government, under the date and number 1st March 1866, No. 538, Revenue Department. noted in the margin, together with ten Title Deeds for the lots Nos. 1 to 10.
2. I also at the same time received the Deed for No. 11, to which reference is made in the second paragraph of the Order noted above.
3. I had anticipated that an objection might be raised to deliver to me a Deed with blanks in it, I therefore previously to sending to you the Deed for No. 11, had the columns "boundaries" and "extents" filled up by ruling lines, so as to prevent the introduction hereafter of any matter under those heads, not being aware that any great stress would be laid on those particulars being introduced, as at best the information which is usually inserted is scarcely sufficiently specific to enable any party to ascertain the precise boundaries of the property.
4. I was not able to fill up those two columns with the boundaries and extent of land, because after a lengthened correspondence with several Departments, as also search in the office of the Revenue Survey, I failed to obtain the information necessary to enable me to fill up those columns, with those particulars. I understand that the Collector has no records in his office from which the information can be gleaned, inasmuch as the property belonging to the late Nabob never was under his charge; and as regards the Revenue Survey, I learn that property claimed as belonging to the late Nabob was not surveyed. It, therefore, rests with the Naib Nazim of the late Nabob's at Trichinopoly, to point out the hamlet of Vaddeloor, when the boundaries and extent could be ascertained; this can still be done on my Agent's arrival at Trichinopoly. I fear a correspondence with the Collector would cause much trouble and great delay, for, if I am rightly informed, he would be in a great measure dependent on the Naib Nazim for the information; relying on these Deeds being issued I have advertised the property for sale on Saturday the 24th instant, at Trichinopoly; at this season I shall not be able to leave Madras for the time which would be required to conduct the sale, but I have arranged with Mr. James Richardson, who is fully acquainted with all requisite particulars, to conduct the sale for me; and I do myself the honor of suggesting, for the consideration of His Excellency the Governor in Council, that the form of Deed which now accompanies might be signed by you and have the seal of Government affixed, and be then forwarded to the Acting Collector with a request that he will, on Mr. Richardson's arrival at Trichinopoly, afford him any assistance he may require for determining the boundaries and extent of that hamlet, and then that he (the Collector) should have those particulars filled into the two columns left blank, and deliver the Deed to Mr. Richardson.
5. I return the Deed for No. 11, which was returned to me with the Order noted above.

Sir,

Para 1

I do myself the honor of acknowledging the receipt of the Proceedings of 1st March 1866 A-538 Rev. Dept. Government under the date and number noted in the margin; Together with 10 Title Deeds for the Lots A-1 to 10.

2 I also at the same time received the Deed for A-11 to which reference is made in the 2nd para of the order noted above.

3 I had anticipated that an objection might be raised to deliver to me a Deed with blanks in it, I therefore previously to sending to you the Deed for A-11 had the columns "Boundaries" and "Extent" filled up by ruling lines, so as to prevent the introduction hereafter of any matter under those heads not being aware that any great stress would be laid on those particulars being introduced; as at best the information which is usually inserted is scarcely here sufficiently specific to enable any party to ascertain the precise boundaries of the property at all - nor 4 I was not able to fill up those 2 columns with the boundaries and extent of land, because after a series of correspondence with several
