*Proceedings of the Madras Government, Revenue Department,
10th January 1866.*

No. 147. Read the following letter from the Under Secretary for Lands and Works, Queens land, to the Secretary to the Government of Fort Saint George, dated Brisbane, 17th November 1865, No. 65-2241 :—

1. Reverting to your letter of the 12th September last, containing a request that the Madras Government may be furnished with a small quantity of the seeds of kind specified in a list accompanying, also with any reports, &c., regarding the quality of the timber of the different Eucalypti and Acacias, I have been instructed to forward you a copy of a report received from the Director of the Botanical Gardens at Brisbane, respecting the seeds required by your Government, and which will be sent with all possible despatch.

2. The Government of New South Wales will, possibly, be able to furnish you with the result of the experiments touching the value of the Eucalypti and other trees indigenous to the eastern seaboard of this continent, in a commercial point of view.

No. 148. ORDER THEREON, 10th January 1866, No. 76.

Miscellaneous.

Ordered that a copy of the report received from the Director of Botanical Gardens at Brisbane be sent for the information of the Conservator of Forests, and the Superintendent of Government Chinchona Plantations.

(True Extract.)

(Signed) J. D. SIM,

Secretary to Government.

To the Conservator of Forests.
„ the Superintendent of Government Chinchona Plantations.

Planic Garden

Rustavel 1st November 1865

Sir

I have the honor to acknowledge the receipt of your communication dated 30th October last and beg to state that I shall be enabled to furnish the Madras Government with seeds as per accompanying list. Many of these are not included in the list of desiderata sent by the Madras Government and are some of the best and most valuable seedland timber trees.

Some of the genera enumerated in the list as *Petrophila*, *Scopigone* and *Dryandora* are almost confined to Western Australia and *Epacris* and *Cordia* are chiefly New South Wales and Victoria plants.

I may state that it will be impossible to procure seeds of the *Aracacia*, *Pidivellia* and some others before February next, but many of the others will be ready for transmission by the December Mail.

I have the honor to be
Yours faithfully
Sig^d Walter Hill.

To
The Honorable
The Secretary for Lands and Works
