G.O. No. 821

Press
Mis.

Dated 10-4-1866.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Revenue Department,
10th April 1866.*

No. 95. Read the following Endorsement of the Consulting Engineer for Irrigation and Canal Company, dated Madras, 22nd March 1866, No. 166 :—

Read the following letter from the Agent and Manager Madras Irrigation and Canal Company, to the Consulting Engineer Irrigation and Canal Company, dated Madras, 19th March 1866, No. 626.

1. The time is rapidly approaching when the preliminary arrangements must be made for the annual distribution of water to the Ryots, previous to which there are several points which urgently require settlement.

2. These you brought under the notice of Government at my request, in your letter No. 137 of 5th January, the principal being, (1) the system upon which water is to be charged in reference to area and demarcation ; (2) the rate at which garden irrigation is to be charged ; and (3) the rate for general irrigation.

3. I had hoped to have received the decision of the Government before this, upon the points indicated.

4. But if a decision has not yet been arrived at, I would suggest that a Notice should be issued by the Collector of Kurnool warning the Ryots that the Notice of 1864 is subject to modification for the approaching season.

1. Forwarded for the consideration and orders of Government, with reference to the papers referred to the Revenue Board for report in Proceedings of Madras Government No. 423, dated 3rd February 1866.

2. It appears to be advisable that the terms on which water for irrigation will be supplied in the coming and future seasons, and the arrangements which are to hold good as regards the non-supply of parts of individual fields, if that modification be sanctioned, should be made known to the Kurnool Ryots as early as possible.

(Signed) J. MULLINS, Captain, R. E.,
Consng. Engineer for I. & C. Company.

Referred to the Revenue Department. The Orders in that Department, No. 662, dated 15th March 1866, were communicated to the Consulting Engineer on the 23rd idem.
