*Proceedings of the Madras Government, Revenue Department,
11th April 1866.*

No. 121. Read the following Proceedings of the Board of Revenue, dated 27th March 1866, No. 2,158.

Read the following Proceedings of the Madras Government, dated 9th January 1866, No. 62, Revenue Department :—

ABSTRACT.—Stating that the restriction as regards wells dug in the vicinity of tanks should be retained, that in the cases of rivers and channels, the minimum distance may be reduced from fifty to ten yards from the foot of the embankment, and that mechanical contrivances may be permitted near these Irrigation works, subject to the conditions and charges proposed by the Board, as long as their safety is assured.

Ordered that a Circular Order be issued accordingly to the effect that the distance from a river or channel bund within which a well may be sunk in dry land without enhancing its assessment, is reduced from fifty to ten yards, no additional assessment being leviable on account of wells sunk in wet land, and that with the permission of the Collector, mechanical contrivances, as Pakottahs, &c., may be erected on the banks or bunds of irrigation works so long as the stability of the works is not endangered, the charge for irrigation so obtained being three-fourths of the water-rate or usual Teerwajasti of the District for the quality of land concerned.

No. 122. ORDER THEREON, 11th April 1866, No. 834.

Land Revenue.

Ordered to be recorded.

(True Extract.)

(Signed) J. GROSE,

Acting Under Secretary to Government.
