725-726

Dated 31-10-1866.

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department,
31*st October* 1866.

No. 725. Read the following Proceedings of the Board of Revenue, dated 24th October 1866.

Read the following :—

Report on the state of the season in the Cuddapah District, during the first fortnight in October 1866.

1. Copious showers of rain fell during the fortnight throughout the District. Several tanks received supplies of water ; the small tanks generally being now quite full, but the large tanks requiring further supplies of water to render them so.

2. Paddy, raggy, &c., were being sown in the northern section, and horse-gram was being sown in the eastern, and in parts of the southern sections. Jonna, raggy, and sajja were reaped in a few localities in the eastern and southern sections.

3. There has been a marked improvement in the prospects of the district in the past fortnight. The standing crops are in excellent condition, and prices shew a decided tendency to fall. There is not much distress now among the laboring classes; and cholera still continues in the Badvel and Voilpaud Talooks only. In the other talooks cholera and cattle disease existed in a few localities.

CUDDAPAH,
22nd October 1866.

(Signed) T. G. WARD,
Deputy Collector.
