No. 399. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp at Dowlaishweram, 1st August 1867, No. 103 :—

1 Sketch,
1 Plan.
1 Abstract Estimate.
1 Specification.

1. I have the honor to forward for sanction an estimate, amounting to Rupees 5,660, for making a tow-path between Vizaisweram and Nidadavole, and for cutting down the banks to a slope of 2 to 1.

2. A tow-path is much required, as the current is strong and the bank of the channel is very rough and uneven.

3. The money proposed to be spent on the tow-path is not much, as it will be made in course of cutting down the banks to a proper slope; the banks are high and almost perpendicular, and are consequently much eaten into by the current, this was not of so much consequence when the soil thus taken from the banks above was carried by the stream and deposited in the Nidadavole and other Madoogoos; but these small lakes are now either quite or nearly filled up, and it is advisable to at once stop, as far as possible, an action that causes a silting up of the main channel, which would have to be cleared out at a very considerable cost.

No. 400. Order thereon, 16th August 1867, No. 2,510.

IRRIGATION, No. 4.

The Government sanction the estimate amounting to Rupees 5,660 for sloping down the banks of the Western Delta Main Canal from Vizaisweram to Nidadavole in the Godavery District, and, as the work is urgently required, they direct that it be at once put in hand, and that funds to adjust the outlay be provided by transfer from the allotment for item 152 * of the Budget, subject to the approval of the Government of India.

* Madras Water Supply Project.—Present allotment Rupees 3,07,939.
