Proceedings of the Madras Government, Revenue Department, 22nd January 1867.

No. 448. Read the following Proceedings of the Board of Revenue, dated 18th January 1867.

Read the following letter from the Collector of the Kistna District, to the Secretary to the Board of Revenue, dated Rajahpett, 9th January 1867, No. 11 :—

1. I have the honor to report that about 9 P. M. on the night of the 3rd instant, a slight shock of an earthquake was experienced by me at the Kommalapad bungalow in this talook. The vibration of the earth was very slight, but was accompanied by a noise somewhat like distant thunder.

2. Similar rumblings were heard at intervals throughout the night, but no further vibration was experienced. The sky was perfectly cloudless, or, I should have fancied it might have been thunder.

3. I have since been informed that on Sunday the 6th a slight shock was felt at Vinukonda, and that such disturbances are very common at that place.

---

1. Submitted for the information of Government.

2. The Board would suggest that the Government Astronomer be requested to state what particular points should be specially noticed by observers in these cases.

No. 449. ORDER THEREON, 22nd January 1867, No. 212.

Miscellaneous.

1. Communicated to the Government Astronomer and to the Superintendent of the Geological Survey. The frequent occurrence of such disturbances in the locality in question probably indicates latent volcanic action.

2. Messrs. Pogson and Oldham will be good enough to furnish the Board with the desired information as to the points to which attention should be specially directed when these disturbances are noted.
