*Proceedings of the Madras Government, Revenue Department,
12th September 1867.*

No. 230. Read the following Proceedings of the Board of Revenue, dated 30th August 1867, No. 5,638.

Read the following letter from the Collector of Bellary, to the Acting Secretary to the Board of Revenue, dated 31st July 1867, No. 150:—

The removal of old walls built in former times round villages, being a measure necessary for the sanitary improvement of the villages, and the sale of these stones forming a fund, by which improvements can be carried out, which are not otherwise feasible, by filling up moats, and unwholesome pits, removing malarious vegetation, and improving roadways, and drains, I obtained the sanction of Government in Government Order, dated 27th February 1867, No. 483, to carry out this improvement. I beg that the Board will authorize me to credit the sale of the said stones to Local, and not to Imperial Fund, by opening an additional item in the Local Fund Account, under the head sale of village wall stones. The fact is that the walls were altogether built by the villagers for their protection, and the sale of the stones can be in no way an item of Imperial Revenue. I beg that the Accountant General be advised of the Board's decision on this subject.

1. Submitted to Government, with the Board's recommendation that the sale proceeds of the materials of Town walls, referred to by the Collector, be credited to the District Road Fund, under the head of Miscellaneous receipts, as the walls appear to have been built by the villagers for their protection.

2. The Collector will submit the information required in paragraph 3 of the Government Order, dated 27th February 1867, No. 483.

No. 231. ORDER THEREON, 12th September 1867, No. 2,156.

Local Funds, No. 9.
Civil Works.

1. The Government observe that their Order quoted by the Collector had reference solely to the town of Gooty, and was not a general order such as he describes.

2. The opening up of walled villages, where the enclosed space is crowded, must however be decidedly conducive to health, and the Government approve of the measure being carried out.

3. The sale proceeds of the stones are clearly not an item of Imperial Revenue, but should be credited as the Board propose, and expended on the improvement of the particular locality whence they were derived.

4. The control of the wall site should be retained by the Collector and carefully exercised.
