

N^o 54

From C. H. Read Esq
Collector of
South West

To W. H. Hudson Esq
Secretary to Government
Revenue Department
Madras

I shall be much obliged
if Government will authorize
3 spare copies of all Proceedings
received from them direct being
forwarded to me and more
particularly papers in the Revenue
Department, since the present
practice of sending only one copy
is attended with great inconvenience
as the Land Paper has to be
circulated, and at times copied
in manuscript for record in
the Cutchery of subordinate
officers.

W. H.

2. One instance of the kind has lately occurred in regard to the Proceedings of Government Revenue Department No 3154 of the 15th November 1868 containing Mr Dyke's report on the following experiments and for which Mr. H. H. Langley has collected for me and for a copy as to take much interest in the subject and requires the Paper in question for frequent reference.

The paper now to be found with a bound form of the Proceedings in question that you are able to find and require the Government printer to send on the head of Revenue and supply collectors with a copy of the Proceedings in view of the circulation to the various offices. I think that the printer will be pleased to furnish and hereafter to send 3 spare copies at least or one for each of the offices of the Divisional Commissioners and to the various

with all matters of general interest and importance connected with the Revenue administration.

I have the honor to be
Sir

Your most obedient servant

Southwick
