Nº 52

Bellary Collector's Office,
9th October 1867.

From,
A. Wedderburn Esquire,
Collector of
Bellary.

To,
W. Hudleston Esquire,
Secretary to Government Revenue Department,
Madras.

Sir,

In reference to the Proceedings of Government, dated 6th October 1867, Nº 2324, I have the honor to state that 6 Maunds or 150 lbs of Hingunghat cotton seed may be supplied for experimental cultivation in this District.

2 Where the climate is suitable in the Western Valleys bordering on Dharwar, the Dharwar, or acclimatized New Orleans cotton, is cultivated in other and more arid parts the indigenous.

3 I gather from the correspondence from the allusion to the new system of cleaning cotton in the mills in Europe, that the Hingunghat cotton is of a shorter staple than the Dharwar saw-ginned, but it will be an improvement on the indigenous, if it be found to succeed in this District.

I have the honor to be,
Sir,
your Most Obedient Servant.

A. Wedderburn
Collector.
