*Proceedings of the Madras Government, Public Works Department,
8th April 1868.*

No. 141. Read the following Endorsement of the Superintending Engineer, 4th Division, dated Madras, 21st March 1868, No. 5,730:—

Read the following letter from the Assistant Engineer, Polur Range, to the Superintending Engineer, 4th Division, dated Arnee, 18th March 1868, No. 692.

In endorsement No. 1,867, on G. O. No. 2,072, of the 11th July 1867, I was directed to report when the 2nd Dresser in Medical charge of working parties was no longer required, if this referred to the special works then in progress in the hills on the western extremity of the range, his services are no longer required as the works are completed; but I beg to bring to your notice that considering that there are now upwards of 4,000 coolies employed in the Range, and that they or the permanent establishment have no means of obtaining medical treatment, I think it would be advisable that the Dresser should be allowed to remain some time longer. I need not inform you that there is always either small-pox, cholera, or fever prevalent in the Range.

Submitted to Government, with reference to their Order No. 2,072, 11th July 1867, and with a recommendation that the services of the Dresser may be continued in the Polur Range, so long as the large working parties, assembled on the famine roads, are employed.

(Signed) A. J. M. BOILEAU, Colonel, R. E.,
Superintending Engineer, 4th Division.

No. 142. ORDER THEREON, 8th April 1868, No. 1,102.

ESTABLISHMENT, No. 19.

The Government accede to the recommendation of the Superintending Engineer of the 4th Division. A copy of these Proceedings will be furnished to the Inspector General of the Indian Medical Department, for the issue of the necessary orders.
