*Proceedings of the Madras Government, Revenue Department,
4th May 1868.*

No. 67. Read the following Proceedings of the Board of Revenue, dated 17th April 1868,
No. 2,839.

Read the following letter from the Collector of the Godavery District, to the Secretary to the
Board of Revenue, dated Ramachendrapoor, 10th February 1868, No. 41 :—

In continuation of my letter of the 17th ultimo, No. 12, I have the honour to forward copy of a
letter from the Acting Sub-Collector, dated 27th ultimo, No. 12, with its accompaniment, regarding
the cultivation of Carolina paddy in the Sub-division, from which it will be seen that the cultivation
has proved almost an entire failure.

ENCLOSURE No. 1.

From J. G. HORSFALL, Esq., Acting Sub-Collector, to the Collector of the Godavery District,
dated Camp at Tanuku, 27th January 1868, No. 12.

1. With reference to your Official Memorandum, No. 13, of the 17th instant, I have the honour
to report on the cultivation of Carolina paddy in the Sub-division during the past year.
2. The quantity of seed-paddy entered in the Statement which accompanies this letter will
be found to be more than that supplied for distribution with your letters, Nos. 64 and 117, dated
30th April and 13th June 1867, the reason being that some of the Cultivators had a reserve
stock from last year's produce.
3. I regret that this year also the cultivation of Carolina paddy has proved almost an entire
failure; the causes assigned are various, namely, poverty of soil, want of rain in season, blight and
freshes, perhaps also the young plants may have been injured at the time of transplantation, as all
the ryots with whom I have conversed on the subject notice the remarkable tenacity of its roots,
and consequent difficulty in transplanting.
4. The quality of the paddy is universally admitted to be excellent, and the ryots would be
only too glad to establish, if possible, its cultivation. I trust, therefore, that a further trial next year
may be attended with better results than have been obtained during the last two years.

(True Copy.)

(Signed) J. FRASER,
Collector.

Enclosure No. 1.
Statement showing the particulars of Cultivation and outturn of Carolina Paddy.

*Proceedings of the Madras Government, Revenue Department,
4th May 1868.*

T. No.	Names of Villages	Names of Cultiva- tors.	Quantity of seed sown.	Whether trans- planted or sown broad cast.	Date of sowing.	Date of transplan- tation.	Space left apart be- tween each plant.	Extent of land in which cultivation was made.	Quantity of paddy sown broad cast, or of which the seed- paddy transplanted.		Date of reaping.	Average height of plants at the time of reaping.	Quantity of grain produced.		Description and class of the soil in which the crop is grown.	Quantity of coun- try paddy or si- milar cultivation usually produced in an acre of such land.	REMARKS.
									By mea- surement.	By weight.			By mea- surement.	By weight.			
1	Tanuku.	Mallapady Venkaya, Pettandar. (41 Seers.)	lbs. oz. 6 8	Sown.	20th June 1867.	..	2 or 3 yards.	A. C. 0 20	P. T. M. 0 0 4 1	lbs. oz. 6 8	20th No- vember 1867.	FT. IN 3 9	P. T. M. 0 0 1 1	lbs. oz. 1 8	Regar, pure, 3rd class, 1st sort.	P. T. M. 0 15 0	No rain till two months after the seeds were sown, when they began to germi- nate here and there in the field; hence the result of cultivation was only a seed of paddy. There is no difference between this and the country paddy. In the seed-bed half the quantity of seed sown germinated, and the rest did not. After transplant- ation took place, some of the plants were injured by "Kodu," a kind of blight, and the rest yield- ed 1 crop. This paddy is equal to the best kind of country paddy.
2	Tetali.	Patapati Tirapatir, Pettandar, (deceased.) (41 Seers.)	6 8	Trans- planted	..	11th Au- gust 1867.	A span	0 3	0 0 4 1	6 8	21st Oc- tober 1867.	2 3	0 0 10 24	0	Regar, pure, 3rd class, 3rd sort.	0 15 0	This crop is injured this year by "Kodu," as well as the country crop.
3	Korukollu.	Chickuri Lakshminpa- tira, Munsiff (de- ceased.) *Proceedings of the Madras Government, Revenue Department,
4th May 1868.*

No. 68.

ORDER THEREON, 4th May 1868, No. 1,215.

Miscellaneous.

The facts stated seem to confirm the opinion that the method of cultivation by *trans-planting* is not suited to the Carolina Paddy, and that it should be sown broad-cast and not too thickly.
