Public Works Department :—

Passing orders with reference to the standard }
designs being strictly adhered to in the con- } (Here enter 9th January 1868, No. 68.)
struction of Talook Cutcherries both in regard }
to construction and accommodation.

No. 243. ORDER THEREON, 16th January 1868, No. 123.

Miscellaneous.

Communicated to the Revenue Board.

(True Extract.)

(Signed) F. BRANDT,
Under Secretary to Government.

To the Board of Revenue, with Proceedings Public Works Department, No. 68.

Exd. F. R. Bantleman.

*Proceedings of the Madras Government, Public Works Department,
9th January 1868.*

No. 131. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department; dated Bellary, 23rd December 1867, No. 2,605 :—

1. I have the honor, with reference to G. O., No. 3,552, dated 18th ultimo, to request you will inform me if I may substitute a terrace or Bengal roof in place of the tile-roofing for the Talook Cutcheries, ~~or in place of the standard designs for these buildings.~~

2. I ask the question as from the very porous description of tiles manufactured in parts of this division, it does not seem to me that they are suited for such large and extensive pukka buildings as those proposed.

3. The cost of terrace or Bengal roofing would certainly be greater, but it will be found more economical and less troublesome in the end.

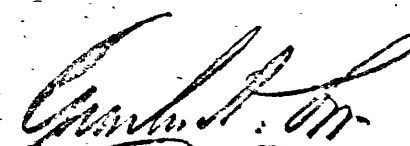

4. I would also solicit the orders of Government as to whether I may not increase the accommodation proposed for the lock-ups, according to circumstances in each case.

No. 132. ORDER THEREON, 9th January 1868, No. 68.

CIVIL WORKS, No. 18.

The Government see no reason to believe that the so-called Bengal roof possesses any advantages over the ordinary tiled roofing, and they are of opinion that, with proper care in the selection of materials, and the enforcement of good workmanship, the latter description of roofing will be found to be preferable. His Excellency in Council accordingly directs that wherever new Talook Cutcheries are required, the standard designs circulated with G. O. No. 3,552, dated 18th November 1867, be strictly adhered to, both as regards construction and the accommodation to be provided.
