Proceedings of the Madras Government, Revenue Department, 12th May 1868.

No. 268. Read the following Proceedings of the Board of Revenue, dated 4th March 1868, No. 1,549.

Read the following letter from the Mint Master, to the Secretary to the Board of Revenue, dated 29th January 1868, No. 486 :—

1. In reply to the Board's Proceedings, No. 401, dated 18th instant, I have the honor to state that there is only one competent Smith and Fitter in the Mint, who is willing to go up-country to look after salt weighing-machines. He can be despatched immediately to Nellore, and I would recommend that his pay should be Rupees 30 a month.

2. I am decidedly of opinion that a similar workman should be attached to every Collectorate in which the salt machines are in use, both for setting them up when required, and from time to time effecting small repairs, and for this purpose, I think, a small supply of tools should accompany each man.

3. I will take immediate steps to provide additional men for this purpose.

4. I do not understand Mr. Freer's letter to the Acting Collector of Nellore, No. 224, dated 11th October 1867, regarding the adjusting of the weights of the salt machines; they do not require adjustment, and ought not, on any account, to be altered in any way. The only adjustment the machines need, is in forming a perfectly level bed for them to rest on, and then putting them together carefully; but I cannot imagine what is meant by the expressions "testing their adjusted weights," "deficiencies in adjusted weights," "unsafe to allow the deficiency in the adjusted maund weights to be corrected in my absence."

1. With reference to Board's Proceedings, dated 19th September 1865, No. 5,814, recorded in Government Order, dated 26th September 1865, Government will be asked to sanction the appointment of a Smith at a salary of Rupees 30 per mensem, to each district supplied with the new weighing-machines. The man referred to by Colonel Carpendale will then be sent to Nellore, and the other districts will be supplied as fast as trained men are available.

2. The Collector of Nellore will call on Mr. Freer to submit an explanation with regard to the remarks in paragraph 4.

No. 269. ORDER THEREON, 12th May 1868, No. 1,313.

Separate Revenue, No. 14.

Salt.

1. The Government are prepared to sanction the employment of the proposed establishment, but they desire first to know whether the charge cannot be met by a reduction in the number of Measurers, whose work must be much reduced by the introduction of the weighing machines. This point was raised in G. O. No. 1,210, Revenue Department, dated 3rd June 1865, to which the Board make no allusion.

2. From Mr. Pelly's report on the final revision of the Salt Establishments, recorded in Government Proceedings No. 1,845, Revenue Department, dated 20th July 1866, it appears that the saving on the charge sanctioned by the Supreme Government is only Rupees 173 monthly, which would not suffice to meet the increased charge for Smiths, even were it available for the purpose, which it is not.

(True Extract.)

(Signed) W. HUDLESTON,
Secretary to Government.

To the Board of Revenue.

Exd. S. T. Augustin.

Return of Insurance
Companies to the Inspector of the
Insurance Offices Act 1870 for the
