No. 333. Read the following letter from the Collector of South Arcot, to the Secretary to Government, Revenue Department, Fort St. George, dated Trekalore, 6th May 1868, No. 40:—

1. I submit for the sanction of Government and for the necessary authority for the outlay, the accompanying Budget Estimate for special works received from my Head Assistant Mr. Lister, amounting in the aggregate to Rupees 30,480.

2. The greater part of these works are the selection of Mr. Robinson, and the rest have been made at his instance by Mr. Lister, in communication with the Range Officer, and they embrace all the works contemplated by Mr. Robinson in his Report to Government, under date the 7th March last.

3. I have lately been in Chekkady, accompanied by Mr. Lister, and have traversed the greater part of the country visited by Mr. Robinson, and I am of opinion that the construction of the works projected will prove a very great blessing to the people, and will in every way open up traffic, and give a healthy stimulus to the productive resources of that part of the district.

4. There were other works of great utility connected with irrigation, and to which, on my late visit, my attention was drawn. For these, separate estimates have already been prepared, and are now with me, and I propose that these works should be effected through the ordinary agency of the Public Works Department, on whom they properly devolve, and I trust, in view of their importance and utility, there will be no difficulty in carrying them out in the current official year; but should the necessity arise, I shall have no hesitation in applying to Government for a special small grant for the purpose. At present I do not think it requisite to enter into any details of the works in question, nor of their eventual benefit to the people, because I consider that they legitimately fall under the head Agricultural, and should be undertaken at once by the Public Works Officers.
