*Proceedings of the Madras Government, Public Works Department,
5th May 1868.*

No. 117. Read the following letter from the Secretary to the Government of India, Public Works Department, (Account Irrigation,) to the Secretary to the Government of Madras, Public Works Department, dated Fort William, 13th April 1868, No. 52 A—I;—

1. Under the rules laid down in Public Works Department Circular No. 94 of 1867, all appropriations from the grant for Extraordinary Irrigation Works have to be made under the special orders of the Government of India in each case, but up to this time no application has been received from the Government of Madras for sanction to such appropriations for the year 1867-68.

2. As this special sanction for the application of the funds obtained by loan to any work is regarded as of essential importance, for the reasons that have already been given, the Governor General in Council desires to draw the attention of the Government of Madras to the rules on the subject contained in the Circular already referred to, and requests that steps may be at once taken for complying with those rules in respect to *all* Irrigation Works under construction during 1867-68.

3. With this view, I am to request that an application may be submitted, as soon as possible, in the accompanying form, showing such of the Irrigation Works as have been in hand during 1867-68 which it is desired to treat as Extraordinary Works, and which are considered to comply with the conditions laid down in Rules II, IV, V, VI, and VII of Public Works Department Circular No. 94 of 1867. A corresponding list should likewise be submitted of those works which have been in hand during the year which are not to be treated as Extraordinary Irrigation Works.

4. As regards the Irrigation Works provided for as "Extraordinary" in the Budget-Estimate for 1868-69, it has to be noticed that, before the expenditure of the special fund obtained by loan on any of these works can be considered as duly authorized, sanction of the Government of India has to be obtained in each case to classifying them as "Extraordinary Works." It will, therefore, be necessary that application should be made for this being done for such of the works as have not been in progress during 1867-68, and which are not entered in the statement required for that year; and the same thing should be done in every case that may hereafter arise, in which it is desired to apply the Extraordinary grant to any new work.

5. The Controller of Public Works Accounts will not be justified in debiting any outlay against the Extraordinary grant for Irrigation Works, excepting on account of Works thus approved, or of Establishments or Tools and Plant required for them.

GOVERNMENT OF N. W. PROVINCES.

Application to the Government of India for sanction to appropriations from the Extraordinary Grant to meet the expenditure incurred on Irrigation Works during 1867-68.
