G.O. No. 15-25- Press ~~Mis.~~

84-35.
Dated 2-6- No. 1868.

Not to be folded or roughly handled

Ans

Read again Proceedings of Government, Revenue Department, dated 14th May 1868, No. 1,337.

No. 34. Read also the following letter from the Barrack Master, Presidency, to the Secretary to Government, Revenue Department, dated Fort St. George, 19th May 1868, No. 355:—

1. With reference to the Order of Government No. 1,337, dated 14th May 1868, I have the honor to state that the Chepauk compound was cleared towards the end of last year at a cost of about one hundred and six Rupees, but so long as extensive building operations are being carried on, it seems quite futile to attempt to give the ground that park-like appearance which it will ultimately assume when the Senate-house and other buildings in the compound are completed.

2. I have, therefore, refrained from putting Government to the expense of an establishment until such time as the grounds are laid out and planted.

3. In like manner, until the new latrines are built, it seems unnecessary to alter the present Conservancy establishment.

No. 35. ORDER THEREON, 2nd June 1868, No. 1,525.

Miscellaneous.

The Government are of opinion that notwithstanding the building operations now going on at Chepauk, something may be done to keep the property in more respectable condition, and they resolve to direct the Superintending Engineer to take charge of the whole of the land, and to adopt measures for putting and keeping the place in decent order, fencing the avenue trees and the grass, removing noxious vegetation, and defining the roads. The Commissioner of Police will take steps to prevent trespassing on, or injury to, the property. The Barrack Master will retain charge of the office conservancy of the buildings, and the Government desire that strict orders may be issued at the Revenue Board to prevent the place from being littered with office-sweepings, or the vicinity and the verandahs of the buildings from being encumbered with disused furniture and rubbish, as has been observed on more than one occasion.
