BELLARY,
21st May 1868.

(Signed) H. E. SULLIVAN,
Collector.

Submitted for the information of Government.

*Proceedings of the Madras Government, Revenue Department,
8th June 1868.*

No. 192. Proceedings of the Board of Revenue, dated 27th May 1868.

Read the following letter from the Acting Collector of Madras, to the Acting Secretary to the Board of Revenue, dated Sydapet, 26th May 1868, No. 165.

Copy of Sub-Collector's letter is enclosed. 1. I have the honor to submit the season report for the week ending May 23rd.

2. On the 21st instant rain fell in the Conjeveram talook to the extent of ½ to 1 inch in Conjeveram, Tennari, and Stripperumadur, and showers were general throughout the talook.

3. In Trivellore, Chingleput, and Sydapet also there were showers on the same day.

4. Rain must have fallen to a considerable quantity in North Arcot, as the Cortillar river has received a small supply of fresh water.

5. Prices have slightly risen since the preceding week in Sydapet talook as shewn in the margin. Cattle disease appears to be on the decrease, small-pox still continues.

SALES.		
	Week ending 16th May.	Week ending 23rd May
Rice, 1st sort...	350	400
" 2nd " ...	400	415
" 3rd " ...	320	373
Raggy... ..	206½	210
Paddy, 1st " ...		182
" 2nd " ...		175
" 3rd " ...		168

From the Acting Sub-Collector of Madras, to the Acting Collector of Madras, dated Camp at Vendalore, 22nd May 1868, No. 124.

1. I have the honor to inform you that heavy rain fell yesterday afternoon in Stripperumadur and its neighbourhood for about two hours. I have waited in vain till now, in the expectation that I might be able to report that the clouds with which the sky has since been overcast might result in showers here also.

1. Submitted for the information of Government.

2. The showers appear to have been partial, but the Board are glad to observe that a good fall of rain occurred in the eastern part of the Conjeveram talook, one of the tracts where the want of drinking water was beginning to be felt.

No. 193. Proceedings of the Board of Revenue, dated 28th May 1868.

Read the following letter from the Acting Collector of Cuddapah, to the Acting Secretary to the Board of Revenue, dated on Circuit at Nulla Chervu, 23rd May 1868, No. 93.

I have the honor to report, for the information of the Board, the occurrence of a good fall of rain in Budwail, Voilpaul, and some parts of Kadiri and of Muddenpully talooks.

Submitted for information of Government.

No. 194. Proceedings of the Board of Revenue, dated 28th May 1868.

Read the following letter from the Acting Collector of Nellore, to the Acting Secretary to the Board of Revenue, dated Nellore, 23rd May 1868, No. 1,501.

I have the honor to submit the season report of this district for the week ending 16th May 1868.

Rain.—Slight rain in Atmakur talook on the 12th instant.

State of crops.—The harvesting operations have been all complete. The quantity of wet crop that has withered is very considerable, chiefly in Nellore and Gudur talooks. The crops under well irrigation in Ongole and Kanigiri talooks are promising.

Proceedings of the Madras Government, Revenue Department,
8th June 1863.

Prices.—Under this head, no particular changes have taken place, as shewn in the following statement:—

Paddy.	1st Sort.	2nd Sort.	Rice.	1st Sort.	2nd Sort.	Raggy.	Jonna.	Sutia.	Aruda.	Vala.	House-Bean.	No. of Madras measures per Rupee

No. of Madras measures per Rupee

ings of the Madras Government, Revenue Department,
8th June 1863.

th.—Ague and small-pox still prevail in several parts of the district, ve occurred in Atmakur talook, and in Nellore from small-pox.
ise—Exists more particularly in Atmakur and Kandukur talooks, of an ordinary type.

Submitted for information of Government.

Proceedings of the Board of Revenue, dated 28th May 1863.

Read the following:—

Report of North Arcot District for the week ending 25th May 1863.

Considerably improved.

There have been showers, varying from $\frac{1}{2}$ to $1\frac{1}{2}$ inches of rain, in Chittoor, Chendragherry, Palamanair, Gudiyattum, and Wallajah. Nellore, 3 inches of rain are reported, and at Poloor, $3\frac{1}{2}$ inches. Parts of Kavetnuggur, and Kungundy Zemindaries have also been favored by showers. Here and there the tanks have received a small supply, and operations have been very generally resumed.

—Well supplied.

HEALTH.—Generally very good.

—Still very scanty. Murrain much abated.

SUPPLY.—Scarcity of water not nearly so pressing as it was lately. It is now in parts of the Wandewash and Chendragherry, and to the north of the Punganoor Zemindary. On the whole, cause left for continued anxiety regarding the condition and prospects

(Signed) G. VANSAGNEW,
Acting Collector.
