*Proceedings of the Madras Government, Revenue Department,
10th June 1868.*

No. 268. Read the following Proceedings of the Board of Revenue, dated 5th June 1868.

Read the following letter from the Collector of Bellary, to the Acting Secretary to the Board of Revenue, dated Camp at Benkonda, 29th May 1868, No. 124 :—

I have the honor to forward, for the information of the Board, translations of reports received yesterday from the Tahsildar of Madakserah, reporting one inch of rain having been registered on the 20th, and the same amount on the 22nd instant.

Translation of an Arzi from the Tahsildar of Madakserah, to the Collector of Bellary, dated 21st May 1868, No. 25.

Reports that, on the 20th instant, rain fell from half-past 3 to 4 p. m., and again from half-past 6 to 7, and the fall is 2 measures and 1 cent; that the ryots, &c., of the adjoining villages, who have assembled for the market which has taken place this day, say that the lands are quite fit for cultivation, and the rain-fall is very useful for ploughing dry and wet lands and for sowing oil seeds; that he has heard that this rain has extended five miles around the cusba, and that the small tank at Karasamudrum has received 15 days' supply; that the cusba tank has not received supply yet; that this rain might have extended even in the distant part of the talook; that as soon as reports are received from the village authorities, he will report the same, and that he considers that if such rain falls two or three times, and tanks and coontas receive their supply, the wells will be full and the people will be happy.

Translation of an Arzi from the Tahsildar of Madakserah, to the Collector of Bellary, dated 23rd May 1868, No. 26.

Reports that rain commenced on the night of the 22nd instant, at half-past 12, and continued till half past 2; the Karasamudrum large tank has received eighty days' water, and the small tank 15 days, in addition to the 15 days' water received on the 20th instant; that as the Curnum of that village reported this day that water is escaping from the small tank from a hole in the bund, he has written to him to have the same stopped, and that he has gone himself to see that it is done so, and that as soon as he receives information from other villages about the rain-fall, he will report the same.

Submitted for the information of Government.

No. 269. ORDER THEREON, 10th June 1868, No. 1,635.

Miscellaneous.

Ordered to be recorded.
