Dated	11-6-	49-1868

Not to be folded or roughly handled

10/11/51

*Proceedings of the Madras Government, Revenue Department,
11th June 1868.*

No. 286. Read the following Proceedings of the Board of Revenue, dated 2nd June 1868, No. 4,074.

Read the following letter from the Superintending Engineer, 2nd Division, to the Acting Collector of Kistna, dated Masulipatam, 27th April 1868, No. 27 :—

1. I have the honor to forward, for submission to the Board of Revenue and Government, plans and estimates, as per margin, for the construction of a bridge over a deep and frequently dangerous creek near the village of Curlapolem, at the site where the road from Chinnaganjam to Nizampatam and Masulipatam now crosses it.

1 Plan.
1 Detailed Estimate.
1 Abstract do., amounting to Rupees 14,500.
1 Specification Report.

2. A bridge of one arch was erected at the spot many years ago ; but the water-way being quite insufficient to pass the heavy floods of the old Tungabadra river, it was speedily destroyed, and has never been restored.

3. At times it is quite impossible to cross the creek, and whenever small freshes are passing, it is always dangerous, the creek being deep and the bottom composed of slimy mud.

4. As the floods do not rise more than twelve feet in height, I believe the structure now proposed affords ample water-way.

5. Before this work is sanctioned, it will probably be too late in the season to build the foundations during the current year. I would, therefore, propose that only 4,000 Rupees be granted this year for the collection of stone, chunam, &c.

6. Should there be no Local Funds available, I would suggest that this amount be transferred, in two sums of 2,000 Rupees each, from Items Nos. 34 and 36 of the Local Fund Budget.

No. 143.

1. Submitted for the sanction of the Board and Government.

2. The creek, for the bridging of which the estimate is made, is a very dangerous one in the rains, and is for a considerable part of the year a serious impediment to traffic and passengers. The old bridge referred to in paragraph 2 is better known as the "broken bridge of Appecutla."

3. The estimate amounts to Rupees 14,500, of which, as the season is now far advanced, the Superintending Engineer suggests that only Rupees 4,000 be placed at his disposal for the current year, for the collection of materials.

4. There are no funds available in Local Funds except from the Reserve. I would, therefore, suggest that the transfer of allotments requested in the Superintending Engineer's paragraph 6 be sanctioned.

(Signed) W. WILSON,
Acting Sub-Collector in charge.

MASULIPATAM,
4th May 1868.

To the Secretary to the Board of Revenue.

ENCLOSURES Nos. 1 and 2.—Plan and Estimate.

*Proceedings of the Madras Government, Revenue Department,
11th June 1868*

The estimate, amounting to Rupees 14,500, will be submitted for the sanction of Government. On the receipt of the sanction, the necessary transfer of funds will be made.

No. 287. ORDER THEREON, 11th June 1868, No. 1,644.

Local Funds, No. 10.
Civil Works.

The estimate is sanctioned.

(True Extract.)
