*Proceedings of the Madras Government, Revenue Department,
22nd January 1868.*

No. 340. Read the following letter from the Collector of Kurnool, to the Secretary to Government, Revenue Department, Fort St. George, dated Kurnool, 20th December 1867, No. 106 :—

1. Adverting to Government Order No. 2,652, dated 8th November 1867, I have the honor to submit, for the information of Government, copy of a Report from the Deputy Collector, Peapully, on the condition of the Munro tope and buildings at Patticonda. The two dead trees, alluded to in the report, were ordered to be sold.

2. I shall forward a copy of this report to the Superintending Engineer, 3rd Division, with the view of his expediting the submission of the estimate called for in the Government Order for restoring the tope, &c., to proper order.

From the Deputy Collector, Peapully, to the Collector of Kurnool, dated Peapully, 17th December 1867, No. 149.

1. With reference to the Proceedings of the Madras Government, Revenue Department, dated 8th November 1867, No. 166, I have the honor to report that on my last visit to Patticonda on the 10th instant, I inspected the Munro's tope, well, and the building situated in the said village, and found them in good condition, except some of the slabs covered over the bank of the well being loose, and the water stinking, and two of the Ippa trees dead. On inquiry it appeared that the said trees died about two years ago.

2. The produce of the tope, viz., Tamarind, Wood-apple, &c., for the current year, has been sold in public auction, and was knocked down to one Kurnum Mallagadu for Rupees 86.

3. The two dead trees being of no use except for fuel, I beg to request that you will have the goodness to sanction their sale.

No. 341. ORDER THEREON, 22nd January 1868, No. 170.

Miscellaneous.

1. The Collector will at once take steps to have the tank cleaned out.

2. Mr. Chase will understand that the Government attach importance to the maintenance of this State Memorial in perfect order.

3. It is not clear what the Superintending Engineer has to do with the restoration of the tope. The Collector will see to it himself.
