*Proceedings of the Madras Government, Revenue Department,
18th June 1868.*

No. 449. Read the following Proceedings of the Board of Revenue, dated 9th June 1868, No. 4,306 :—

Read the following letter from the Collector of Sea Customs, to the Acting Secretary to the Board of Revenue, dated Madras, 3rd June 1868, No. 618.

1. Adverting to paragraph 12 of the Board's Proceedings, * No. 3,817, dated 23rd ultimo, I have the honor to inform

* Received to-day.

the Board that it is necessary all iron should be brought into the enclosure, before being passed, because the Beach Conicopolies are not competent to pass iron direct from the Beach, according to sizes, and it was for this reason I proposed that all iron should be brought into the enclosure. The Customs Officer, who now passes iron out of the yard, would be stationed at the west gate of the enclosure, to pass iron according to sizes of bars or bundles as at present.

2. Although, under the proposed arrangements, the Custom-house has nothing to do with the weighment of iron, still it has to be passed according to number and sizes, and this can only be done in one spot. In Calcutta, the same work is done by Preventive Officer on boardship.

Under the circumstances stated by the Collector of Sea Customs, the Board assent to the necessity for all iron being brought to the enclosure.
