No. 2. *ORDER THEREON, 3rd July 1868, No. 189.*

In his letter of the 29th July 1867, No. 11, the Collector of the Godavery District reminded  
Government that a part of Sir Charles Trevelyan's plan of deepening and widening the Cocanada  
river was to have a road-way of forty feet in width running along each bank of the river, to facil-  
itate access to quays and warehouses on its edge. The proposed road is within the municipal  
limits ; but, as the municipal funds were unequal to bear the cost, the Collector asked whether  
Government would contribute to it, suggesting the Port Funds as a suitable source for this pur-  
pose.

2. This suggestion was referred by the Revenue Department, in its Proceedings of the 7th  
August 1867, No. 1822, to the Marine Department for consideration.

3. Although these Proceedings were recorded with other papers connected with the improve-  
ment of the Cocanada harbour in the Proceedings in the Marine Department of the 29th idem,  
No. 223, no specific order on the subject at present under reference was issued.

4. The Superintendent of Marine will now be requested to state, after ascertaining the cost  
of the proposed work, whether the whole or any part of it can be defrayed from the General Port  
Fund.

(True Extract).
