*Proceedings of the Madras Government, Public Works Department,
29th July 1868.*

No. 659. Read the following letter from the Superintending Engineer, 5th Division, to the Secretary to Government, Department Public Works, dated Salem, 17th July 1868, No. 66:—

1. I have the honor to report that the Coomaramangalam Anicut, in the South Arcot District, has been completed, and there will be a saving of Rupees 1,380 on the estimate of Rupees 34,750. I request the authority of Government for the expenditure of the sum of Rupees 1,380 on the following works, estimates for which have been prepared:—

	RS.
Calingulah in the south bank of the northern main channel.	630
Sluice in Keelapaloor Tank	178
Do. Pathur Tank... ..	176
Do. Durmanellore Tank	179
Do. Erumboor Tank	217
	1,380

2. The calingulah is required at a place where a drainage stream crosses the main channel, and, being an indispensable work, has already been put in hand. The sluices are to be built in the banks of tanks connected with the anicut. The cultivation under these tanks will be considerably increased, and they are either unprovided or inadequately provided with masonry sluices.

No. 660. ORDER THEREON, 29th July 1868, No. 2,414.

IRRIGATION, No. 32.

As the works referred to in this letter appear to be connected with the anicut across the Manimuthanaddy River in the South Arcot District, the Government sanction their execution from the amount which has been saved on the estimate for that project, for which a sum of Rupees 12,700 has been provided in the current year's Budget.
