*Proceedings of the Madras Government, Revenue Department,
13th August 1868.*

No. 197. Read the following Despatch from the Right Honorable the Secretary of State for India, (Public,) to His Excellency the Right Honorable the Governor in Council, Fort St. George, dated India Office, London, 9th July 1868, No. 28 :—

1. I have received and considered in Council your Excellency's Despatches, (Revenue Department), of the dates and numbers noted in the margin, on the subject of Chinchona cultivation, and of Mr. Broughton's chemical investigations.

2. Mr. Broughton's Report on the capabilities of the districts near the Neilgherry Hills for furnishing materials for the manufacture of febrifuge preparations is exceedingly satisfactory, and I hope soon to hear that your Government, acting on the suggestions of Mr. Broughton, has been able to mature a plan for supplying the febrifuge in a cheap but efficacious form, and in sufficient quantities to the hospitals in your Presidency. I fully concur with my predecessors in looking upon the supply of the Chinchona febrifuge to the natives of India as one of the most important objects to be secured by its cultivation, although, of course, the desirability of making the undertaking a financial success should not be lost sight of.

No. 198. ORDER THEREON, 13th August 1868, No. 2,158.

Miscellaneous.

Communicated to the Superintendent of the Chinchona Plantations and to the Government Quinologist.
