Miscellaneous.

The exchange of land proposed by the Acting Collector of the Kistna District, and recommended by the Board of Revenue in these Proceedings, cannot be sanctioned without further explanation. The Inam land is stated to be "within the water-spread of the Rayanipad Tank," but how it was situated in former years does not appear. The Board will, therefore, be requested to ascertain and report how the change in the condition of the land has been effected, and what are the particular circumstances of the Inamdar which entitle him to the indulgence sought by the Acting Collector.

Submitting for sanction of Government recommendation of Acting Collector of Kistna district that certain land may be granted to an Inamdar in lieu of his Inam which has become unprofitable.

Read Order of Government.

The best land of which was seldom given as Inam in the first instance, though in the end it too frequently has become, the Board-class was established many years on behalf of the village officers.

Although the Board will sanction here the change in the condition of the land has been effected - & that under particular circumstances of the Salvarty dues, Cases should be submitted to the Government for sanction, the Board cannot but express their regret that such a practice should exist, & that the Inamdars should not be required to obtain the sanction of Government before they alienate the land in question.

The proposed exchange of land is sanctioned. The Board's attention will however be called to the order of Govt. of 12 Augt 1868 No. 2152.

I don't see why the exchange should be made without further enquiry.

The reason for the original grant does not appear - but as the water-head of the Taute at the present time is, I suppose, what it was at the time of the grant, why should not Govt. now withdraw the Inamdar's position? The soil would not be liable to occasional overflow from the Taute tank, for the simple reason that
