*Proceedings of the Madras Government, Public Works Department,  
27th January 1868.*

No. 541. Read the following letter from the Superintending Engineer, 4th Division, to the Joint Secretary to Government, Irrigation Department, dated Madras, 14th January 1868, No. 4,720 :—

1. I have the honor to submit for early sanction an estimate, amounting to Rupees 800, for constructing according to the accompanying plan two calingulahs in the south bank of the supply

1 Plan of Calingulah.  
1 Abstract Estimate, Rupees 800.

channel of the Melcupum large and small tanks in the Wallajah Range, North Arcot District.

2. The channel, which has its source in the hills to east of Lalpet, in the Wallajah talook, is at present unprovided with any proper outlets for the escape of excess water, and consequently gets destroyed during heavy rains. The contemplated new works are intended to obviate this, but estimates aggregating Rupees 1,845 having been, with the consent of the Collector of North Arcot, sanctioned for execution in this year, it becomes desirable that the proposed works be carried out at once, and in view to this I recommend that immediate sanction be accorded to the estimate on the understanding that the requisite funds be provided from savings later in the year.

3. According to the Ayacut statement furnished by the Collector of North Arcot, the revenue at present accruing from the Melcupum works is Rupees 839, and an increase of Rupees 340 is expected from extra water-rate in existing and from extended cultivation.

No. 542. ORDER THEREON, 27th January 1868, No. 279.

IRRIGATION, No. 32.

Sanctioned for immediate execution, the outlay being subject to future adjustment.
