G.O. No. 2809 Press ~~Mis.~~.

29-30 Dated 7-11- 19 1868.

Not to be folded or roughly handled

No. 129. Read the following letter from J. BROUGHTON, Esq., Government Quinologist, to the Acting Secretary to Government, Revenue Department, Fort St. George, dated Ootacamund, 14th October 1868 :—

1. In forwarding the enclosed Budget-Estimates for the year 1869-70, I beg permission to make the following remarks.

2. I have estimated for my Laboratory Establishment for the whole year, believing that Government will find advantage, under any circumstances, in retaining it. I have, therefore, estimated for a continuance of the half-yearly increase of pay of the " paid pupil" for four months, beyond the two and a half years sanctioned by Government (G. O., No. 1,427, June 27, 1867). I have included an increased Estimate to 50 Rupees in pay of Writer, since the increased accounts, connected with a manufactory, will require the services of a practised Accountant. I have the honor to request sanction for the above, and also for an increase of pay of Rupee one *per mensem* for the laboratory Cooly.

3. The other items of Estimate are connected with the completion and working of the Alkaloid Manufactory, and are estimated for the locality, whose sanction is at present under the consideration of Government. They supplement the Estimates for the same undertaking submitted in my Budget for the current year, which were made at a time when my information concerning the conditions of manufacture in this country did not permit of the definitiveness of plan now entertained. I request the provisional sanction of Government for these Estimates. I am convinced the facts connected with the Chinchona undertaking amply show the expediency of the expenditure.

No. 130. ORDER THEREON, 7th November 1868, No. 2,809.

Miscellaneous.

1. The Government Quinologist at Ootacamund submits his Budget-Estimate for 1869-70. It amounts to Rupees 16,958 against Rupees 19,000, the Estimate sanctioned for 1868-69.

2. That portion of the Estimate which provides for the Quinologist's salary and Establishment amounts to Rupees 7,677, which is less than the sanctioned Estimate (Rupees 12,500) for the current year by Rupees 4,823. The decrease is owing chiefly to the provision made for Mr. Broughton's salary for only six months instead of for twelve. Mr. Broughton's term of employment will expire at the close of 1869; but as the Government are not at present in a position to decide whether his services can be dispensed with at that period, they resolve to provide for his salary for the entire year, subject to such orders as may be issued hereafter. The Establishment is already provided for twelve months, but the additional Estimate, for the continuance of the paid pupil beyond the two and a half years, for which his employment was authorised by the Order of Government, dated 27th June 1867, No. 1,427, and the increase to the salaries of the Writer and Laboratory cooly must be omitted. Under the rules laid down by the Government of India, it is requisite that all propositions for increase to salaries and other recurring charges should be submitted distinct from the Budget, and specific sanction obtained before they are entered in that document. Mr. Broughton is at liberty to submit a separate proposition for the increases now omitted. In the event of their being sanctioned,

the additional cost will be met from savings under some other head of the Budget for Education, Science, and Art. Mr. Broughton has not provided for his travelling allowance under paragraph 6 of the Order of Government, dated 13th December 1867, No. 2,968. The Government are not aware whether his inquiries regarding the natural products in the several districts named in paragraph 4 of his letter, dated 28th November 1867, will be completed within the current year. An addition of Rupees 630, or three months' travelling allowance will, however, be made. The Estimate passed for the Quinologist and his Office is Rupees 13,000 in round numbers. Mr. Broughton's Estimate for the Alkaloid Manufactory amounts to Rupees 9,281, as shown in the margin. The subsidiary buildings appear to be required. Mr. Broughton will, of course, submit plans and estimates for them for previous sanction. Among the items under "Machinery and Chemicals," there is one, *viz.*, "Stone vessels from England," which will be paid for in England, and which ought, therefore, under the ordinary rules, to be omitted from the Budget, but the Government have, by paragraphs 4 and 5, made an exception in the case of Mr. Broughton, considering the peculiar nature of his duties, and to guard against mistakes which might produce serious inconvenience. The item will, therefore, be allowed to stand. The Estimate for the Establishment is the same as in the Budget for the current year, except that the former provides for the whole year instead of for six months as in the latter. The provision for "Saderwarid and Contingencies" will be reduced from Rupees 2,400 to Rupees 2,100 in the absence of any data upon which the Estimate is based. Any increase that may be found necessary can be met from savings. The Estimate passed for the "Alkaloid Manufactory" is Rupees 9,000 in round numbers.

	Rs.
Subsidiary buildings	2,440
Machinery and Chemicals... ...	2,590
Establishment	1,851
Saderwarid and Contingencies ...	2,400
	9,281

3. The total Estimate passed for the Quinologist amounts to Rupees 22,000, and the Budget thus revised will be transmitted to the Accountant General.
