305-06 Dated 18-11- 1968.

Not to be folded or roughly handled

No. 305. Read the following Endorsement of the Inspector General, Indian Medical Department, dated Fort St. George, 30th October 1868, No. 354:—

Read the following:—

Docket from the Deputy Inspector General, Indian Medical Department, Mysore Division and Ceded Districts, to the Officiating Secretary to the Inspector General, Indian Medical Department, dated 13th October 1868, No. 1,684.

Reference.

Letter No. 4, dated 10th instant, from the Acting Zillah Surgeon, Mangalore, reporting on the fever in South Canara.

Subject.

Submitted for information of the Inspector General, Indian Medical Department, with reference to the Secretary's docket, No. 3,571, dated 2nd October 1868.

(Signed) J. H. ORR, M. D.,
Dy. Inspr. Genl., In. Med. Dept.,
Mysore and Ceded Districts.

From the Acting Zillah Surgeon, Mangalore, to the Deputy Inspector General, Indian Medical Department, Mysore and Ceded Districts, dated Mangalore, 10th October 1868, No. 4.

1. With reference to a docket, No. 3,571, received from the Inspector General's Office, I have the honor to report, for his information, that, in consequence of the Police Dresser not being at present in a good state of health, I have placed the Jail Dresser at the disposal of the Collector for employment in the district. I have placed the Police Dresser in charge of the Jail, instead of the Dispensary Dresser, as the Jail is close to the Police Hospital, and about a mile and half distant from the Civil Dispensary.

2. I have been informed by the Collector, who receives weekly reports from the districts, that the fever has been rapidly abating, and has now all but disappeared in the district. I have received the same information from the Collector's Dresser, who sends me weekly reports of the number of cases treated by him, (reports herewith attached); as will be seen from these reports, only three cases were treated in a usually very feverish place during week ending 3rd October. The prevailing type of fever has been Tertian and Quartan, in many cases complicated with enlarged liver and spleen.

3. There is no fever in the districts immediately surrounding Mangalore. I am unable to proceed personally to those villages, where a few cases still exist, in consequence of their distance, there being no one to take charge of the Regiment and Station during my absence.

Forwarded to the Secretary to Government, Revenue Department, in continuation of this Office letter, No. 327, of the 2nd instant.

(Signed) W. MACKENZIE, M. D.,
Inspr. Genl., In. Med. Dept.

Proceedings of the Madras Government, Revenue Department,
13th November 1868.

No. 306. ORDER THEREON, 18th November 1868, No. 2,885.

Miscellaneous.

1. Communicated to the Board of Revenue.

2. The Dresser may now be recalled to his regular duties.

(True Extract.)

(Signed) R. A. DALYELL,
Acting Secretary to Government.
