*Proceedings of the Madras Government, Public Works Department,
8th February 1868.*

No. 183. Read the following letter from the Superintending Engineer, 2nd Division, to the Chief Engineer for Irrigation, dated Nellore, 29th January 1868, No. 139 :—

1. With reference to G. O., No. 2,217, dated 23rd July 1867, I have the honor to report, after a careful inspection of the Commamoor channel, that when all the inlets, outlets, and under-tunnels already sanctioned are constructed, there will probably be sufficient passage for the discharge of the local drainage.

2. Swarna is the only village where an extra under-tunnel is obviously needed, and this can be built from the savings on the estimated cost of, other portions of the channel.

3. The construction of bridges has been provided in the estimate for further improvements of the Commamoor channel, which I hope to forward in a few days, and they will be gradually introduced on all the delta channels.

4. I have duly noted the remarks made by the Collector in paragraphs 24 to 27, and will see that the roads referred to are improved as funds become available.

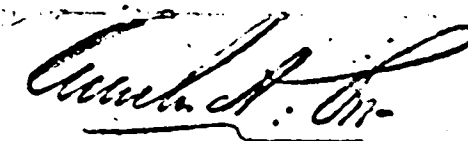

No. 184.
