*Proceedings of the Madras Government, Revenue Department,
7th January 1868.*

No. 77. Read the following letter from the Officiating Conservator of Forests, to the Secretary to Government, Revenue Department, Fort St. George, dated Camp at Ootacamund, 16th December 1867, No. 432 :—

I have the honor to request that the Melbourne Government may be applied to for a large packet of seed of the "Encalyptus globulus" and "Encalyptus marginata," required for our plantations; the latter tree has not yet, I believe, been introduced to our Presidency. Mr. Müller, the Director of the Melbourne Gardens, states that it yields a most valuable timber, absolutely impervious to the shipworms, which play such havoc in piers and other works of naval architecture, its introduction to our mountain forests, especially those near the western seaboard, is very desirable.

No. 78. ORDER THEREON, 7th January 1868, No. 40.

Forests, No. 4.

Application will accordingly be made for the seeds mentioned by the Officiating Conservator.

Not many days ago I
received a communication from
the Office of our Chief Secretary
to provide of West Australia
Mahogany and Victoria Blue
Gum large quantities for the
Madras Government, to which
communication I replied in
recommending that fifty
pounds sterling value should
be procured. I have not yet
an answer from the Office
and as the quantity must be
determined before orders are
given for collecting the seeds,
I have not yet entered into
arrangements but doubtless
I shall be early able to do so.
