*Proceedings of the Madras Government, Revenue Department,
17th February 1868.*

Read the following :—

No. 337. Proceedings of the Board of Revenue, dated 15th May 1867,
No. 2,983.

Read the following letter from the Honorary Secretary to the Farm Committee, to
the Secretary to the Board of Revenue, dated Sydapet, 9th April 1867.

1. I am directed by the Committee to forward to the Board sixteen bags, each
containing 60 Madras measures of Carolina paddy grown upon the farm in the
past cold season.

2. The paddy has been carefully prepared as seed, and the Committee
propose to charge the Board for it at Annas 8 a measure.

1. Ordered that the Carolina seed

paddy* received with the foregoing
letter, and the quantity† remaining on
hand out of the supply received from Tinnevely, be distributed as follows:—

	Measures.
Malabar	360
Godavery	40
Nellore	40
Tanjore	40
South Arcot	40
Fourteen other districts, at 30 each	420
Agri-Horticultural Society	20
Remount Agent, Oossoor	20
Mr. Minchin, Ganjam	6
Mr. Maxwell, Mercara	6
Messrs. Linares & Co., Calingapatam	8
Private parties	18

2. It is observed that the sixteen bags received from the Farm Committee
contained 940 measures, and not 960, as stated.

No. 338. Proceedings of the Board of Revenue, dated 7th February 1868,
No. 932.

Read the following letter from the Collector of South Arcot, to the Secretary to
the Board of Revenue, dated Cuddalore, 23rd January 1868, No. 26.

Adverting to the Proceedings of the Board, dated 15th May 1867, No. 2,983,
I have the honor to forward copy of a letter from my Sub-Collector, reporting
on the result of the experimental cultivation of the Carolina paddy seed furnished
to him.

From the Sub-Collector, to the Collector of South Arcot, dated Virdachellum, 22nd January
1868, No. 30.

I have the honor to state that the Carolina paddy, received with your Memorandum No. 573,
of the 3rd July, was sown in various villages, but owing to the deficiency in the rain-fall did not
come to ear. The impression given by some of the earlier reports that this variety of paddy

requires little water seems erroneous; on the contrary, it appears to thrive best with water on the field of a greater depth than the ordinary paddy.

Submitted for the information of Government, with reference to Board's Proceedings, dated 15th May 1867, No. 2,983, a copy of which is herewith forwarded.

No. 339.

ORDER THEREON, 17th February 1868, No. 441.
