No. 368. Read the following Proceedings of the Board of Revenue, dated 1st February 1868, No. 810 :—

Read the following letter from the Collector of Coimbatore, to the Secretary to the Board of Revenue, dated 10th December 1867, No. 346.

1. With reference to the Board's Standing Circular No. XVII., dated 29th June 1866, I have the honor to submit, herewith, a statement in due form for the official year 1866-67, shewing the description of lands to be given in exchange for certain Inams resumed for public purposes, or otherwise become unserviceable.

2. The reasons for which the Inamdars require an exchange of fresh lands for their Inams, are given in Column 15 of the statement.

3. For the payment of the marginally noted Village Establishments, the revenue due on certain Iyen lands was paid, but the owners of the lands refuse to make these payments any longer and demand their Puttahs. In lieu of the payments hitherto made, it is now proposed to grant the service holders other lands yielding revenue of an equal value to what they have hitherto received. Cases of this kind do not fall within the scope of the Circular above quoted; but still they have to be provided for, and are accordingly submitted for the Board's orders.

Village Sibbundy of Kuttampolliem, in Perindoray Talook.
Curnum Sibbundy of Singanulloor village, in Coimbatore Talook.
Do. of Mettoopolliem, in do.
Maniem Sibbundy of Candayampolliem, in Collegal Talook.

4. It is stated in the latter portion of the Circular that a money compensation for Inams or portions of Inams less than an acre should be invariably proposed; but as this principle is not applicable to the case of village servants, it seems proper that land of equal extent to the Service Inam to be given up should be exchanged for it. This course is proposed with reference to the marginally noted Inam, which is less than an acre.

Service Inam of Yelayamuttur village, in Oodoomalapettah Talook.

5. For the marginally noted Inams, which have been injured by the construction of roads cut through them, their owners demand lands in exchange; but as the exchange lands are in each case less than an acre in extent, the Board's orders about them are requested.

Two Personal Inams in the village of Budinut-tum, of Oodoomalapettah Talook.
One Religious Service Inam of Coorchy village, in Coimbatore Talook.

6. Some of the Inamdars mentioned in the statement have applied for fresh lands bearing an assessment less than that of the Inams actually lost by them, and under the circumstances mentioned in the Circular under reference, their request is recommended for the favorable consideration of the Board.

7. The owners of certain other Inams having required fresh lands, bearing a greater assessment than their Inams, which have been injured, the difference in the assessment of the former has been entered as quit-rent in Column 11 of the statement in a round sum, fractional parts of a rupee being excluded in the calculation.

Statement of remuneration on land or otherwise proposed to be given to Inamdars in lieu of their Inams, which have become unprofitable from causes beyond the Inamdar's control, or by some act of Government, in the District of Coimbatore, for Fussy 1276.

Proceedings of the Madras Government, Revenue Department,

the last fifteen years. The Inamdars therefore request that the assessment on Putta land No. 31, may be made payable to them in lieu of the land in question, which has become unprofitable. The Puttadar agrees to this arrangement.

The land mentioned in Column 4 having been appropriated for building sites by the villagers, the Putta land No. 64, entered in Column 9, is required to be given in lieu thereof.

The Inam granted for the Maniem Sibbundy of this village has become quite uncultivable, in consequence of its being overgrown with thick grass. The Inamdar not being in possession of the land, is precluded from clearing it of grass at a heavy expense. He, therefore, requests the land noted in Column 9 to be given to him in exchange.

The Inam land mentioned in Column 4, has been appropriated by the Railway Department under Class C. In exchange for this the Village Totty, referred to in Column 2, requests the assessment on one Cuttia Counden's Putta land mentioned in Column 9, to be made payable to him. To this arrangement the said Cuttia Counden also consents.

The Inam land referred to in Column 4, having been appropriated by Government for a rest-house, the Curnum alluded to in Column 2 requests that the assessment of one Palaximuttoo Pillay's Putta land may be made payable to him.

The owner of the land referred to in Column 4, who continued to pay its assessment to the Maniem Sibbundy, now requests a Putta for the same to be made in his name. The Maniem Sibbundy therefore request that the Putta land of Moogear Counden that the Putta land of Moogear Counden may be allotted as Inam to them.

The road leading from Karomattampatty to Somanoor, passes through the land referred to in Column 4 which has consequently become unfit for cultivation. The village Sibbundy, alluded to in Column 2, therefore request fresh land, mentioned in Column 9, to be given to them in lieu.

*Proceedings of the Madras Government, Revenue Department,
18th February 1868.*

1. The statement received with the above letter is submitted to Government with the Board's recommendation that the exchanges detailed in it may be sanctioned, with the exception of those for the two personal Inams specified in the margin of paragraph 5 of the Collector's letter. In these cases it is not clear what the values entered in Column 12 represent. Whatever they may be, the proper course in dealing with the Inams is to allow the parties interested the option of taking one acre of land in each case, subject to the payment of a quit-rent equivalent to the difference between the loss sustained by them and the full assessment of the new grants respectively. In the event of this arrangement not being accepted, a money compensation should be proposed. The Collector will be instructed to submit a revised statement for these cases in accordance with the above remarks.

2. In some of the cases now submitted for the sanction of Government, less than a field of Porumboke or than an acre of waste land is entered as the proposed compensation; but the Board see some difficulty in carrying out in their integrity the terms of Government Order, dated 15th May 1866, No. 1,157, paragraph 4, in cases like these, of Village Service Inams, because it is unusual to charge Inams of this description with quit-rent, and the holders might reasonably object to such a course.

3. The grants proposed in paragraph 3 are rightly included in the statement now under disposal.

4. The Collector appears to be right in the views expressed in paragraph 4.

5. In the calculation explained in paragraph 6, the fractions of an anna and not of a rupee (as stated by the Collector) are omitted. When submitting such statements in future, the Collector will be good enough to enter the extent of land in acres. The entry of both Bullahs and Cawnies in the same document causes confusion.

ORDER THEREON, 18th February 1868, No. 455.

Miscellaneous.

1. The Government observe that in four of the cases included in the statement submitted with the above letter, the exchange of land is proposed, because certain ryots, the revenue from whose lands has hitherto and probably from time immemorial formed part of the village service emoluments, now refuse to assent to this arrangement any longer, and demand puttahs in their own name.

2. The ryots are under any circumstances entitled to receive puttahs either direct from Government or, in cases of assigned revenue, from the Assignee as the Government representative; but the Government question the expediency of admitting the objection raised by the ryots to the payment of their public dues to the Government Assignee under an accepted arrangement of long standing, and desire to receive the Board's opinion on this general question before disposing of the present applications.

3. The case is different from that of assignments newly proposed, in which it may be desirable that the ryots' consent should first be obtained, but informa-
