Not to be folded or roughly handled

No. 471. Read the following letter from the Superintendent of the Government Chinchona Plantations, to the Secretary to Government, Revenue Department, Fort St. George, dated Ootacamund, 5th February 1868, No. 11:—

1. With reference to the Order of Government of the 26th April 1867, No. 944, sanctioning the grant of £100 to enable me to purchase plants for the gardens here while on leave to Europe, I have the honor to enclose bills for the expenditure in this matter incurred by me, which exceeds by £29 15s. 9½d. the amount sanctioned in the above Order, and I trust the Government may be pleased to authorize the Accountant General to pass Rupees 1,313-12-4, instead of £100 as sanctioned by Government.

2. I enclose a list of the plants obtained from Messrs. Veitch & Co., of the Royal Exotic Nursery, King's Road, Chelsea, numbering 635 species, many of these being in duplicate, and for the whole Mr. Veitch has only charged £90, which is less than one-tenth the advertised price. This list contains many of the finest plants yet discovered, and their introduction to India will prove of immense value, as there are no less than eighty-six species of valuable ornamental and timber trees.

3. I also enclose a list comprising 308 species of plants kindly furnished gratis by Dr. Hooker, of the Royal Gardens, Kew. Many of these are also of great value, especially the Ipecacuanha and Jalap, five plants of these having reached the Neilgherries in safety, and which promise to add two valuable medicinal products to India.

4. I have also to mention the kindness of Mr. Moore, of the Glasnevier Botanic Gardens, Dublin, and Mr. James McNab, of the Botanic Gardens, Edinburgh, in having permitted me to select from their collections such plants as I required.

5. In all, upwards of 1,100 species of plants have been successfully imported in good condition, and this is not only the most extensive, but probably the most valuable collection of plants ever imported to any country at one time.

No. 472. ORDER THEREON, 22nd February 1868, No. 502.

Miscellaneous.

1. The Accountant General is authorized to pass the charge of Rupees 1,313-12-4, with reference to G. O., dated

26th April 1867, No. 944, Revenue Department.

2. The Government are glad to learn that this valuable consignment of plants has reached its destination in good condition, and thank Mr. McIvor for his attention to the commission.

(True Extract.)

(Signed) F. BRANDT,  
*Under Secretary to Government.*

To the Superintendent of the Government Chinchona Plantations.  
„ the Accountant General.  
„ the Agri-Horticultural Society.  
„ the Conservator of Forests.

Ed. F. R. Bantleman.

W-502.

The Actfm. is authorized  
to pass the charge of \$33.24  
in the order of O. of 26 April  
to G. H. E. D.

The Gov. are glad to  
learn that this valuable  
consignment of plants  
has been reached in satisfactory  
in good condition. I thank  
W. W. Dox for his attention to  
the commission. L. J.
