GOVERNMENT OF INDIA.

FINANCIAL DEPARTMENT.

Accounts.

FORT WILLIAM, *the* 31*st January* 1868.

Read—

A letter from the Government of Bombay, No. 1549, dated 19th December 1867, stating that at present a Monthly Return of the Customs Duties on Imports and Exports respectively, is submitted to the Government of India, in the Financial Department, by the Chief Customs Authority in each Presidency and Administration having a sea-borne trade, in which Return the duties collected at the numerous Ports of the Presidency are shown separately for each Port, in detail of articles, and suggesting that in future the Returns of Import and Export duties respectively should give in one column the duty collected on each article at the chief Port, and in an adjoining column the aggregate of the similar collections on each article at all the subordinate Ports of the Presidency.

RESOLUTION.—The foregoing suggestion affords a fitting opportunity for amending, in several respects, the Forms prescribed in the Financial Resolution No. 3138, dated 25th October 1865, for the Monthly Returns relating to foreign trade and navigation, and to interportal trade with other Presidencies, which are rendered to the Chief Customs Authority in each Presidency by the subordinate Ports in it, and to the Financial Department of the Government of India by the Chief Customs Authority in each Presidency.

2. The Returns do not distinguish (as is desirable) between dutiable and free exports in the foreign trade, or (as is necessary) between Indian produce and foreign merchandise in the exports and imports of the interportal trade with other Presidencies.

3. On the other hand, the Returns require the particulars of trade and navigation, not merely for the month to which the Returns relate, but also for all the expired months of the year, entailing, in this latter provision, unnecessary work which will now be discontinued.

4. The Returns of Import Trade can be further abbreviated. Nearly all the articles landed are passed into consumption direct from the Custom House, *i. e.*, without any part thereof having been previously bonded, so that for these articles the entries in the column of quantities entered for Home consumption are a repetition of the figures in the preceding column of the quantities landed. It will abridge work if the principal Return be confined to the quantities of all dutiable imports landed, and if an extra Return be provided for showing the entries for Home consumption from bond and from the Custom House, of those articles of which quantities were actually passed into or out of bond during the month.

5. The under-mentioned Returns of the series prescribed in the Financial Resolution of 25th October 1865, shall accordingly be superseded by those which are entered opposite to them, as follow, *viz.*:—
