

Dyspepsia

A. Tolasinga Moodian

Deputy Collector Kollam

Age 52

Temporarily removed from service

A. Tolasinga Moodian arrived in Madras July 13 on furlough leave for 3 months, and was shortly afterwards attacked with dyspepsia, and the formation of a lymphatic abscess and the joints of extremities became swollen. I did not see him before the 19th of September, he having been previously under native treatment, when he was laboring under great debility caused by having passed a quantity of blood by the rectum, difficulty of breathing, loss of appetite, pains in his loins, sleeplessness, & constipation. Considerable quantity of Calomel had been administered which produced no curative salivation. He had also a cure gonorrhoea and hemorrhoids suffered from piles. About 4 years ago he was under the medical treatment of Dr. Duff for some months for dyspepsia and debility. At the

Commencement he was
treated with leeches, fennel
and loaves, and his bowels
regulated with Confusion
of doses and Sulphur
lignum. He improved rapidly
under this treatment, and
was able to walk about
and take his meals more
regularly, but on the 14th
Oct. whilst straining
at stool he lost a con-
siderable quantity of blood
by the urethra which in
consequence again greatly
prostrated him. The
previous remedies were
resorted to with the ad-
dition of Port wine. He
is now likewise using
injections for the Gonorrhoea
which has never been
quite cured. He is in
a very weak state of
health and does not con-
sider he is likely to regain
his health to enable him
to return to his duties
under less time than has
passed from the expiration
of his previous leave.
I therefore give him
the following certificate.
J. Henry Stanbrough
Health Officer of Madras
do hereby certify that

J. Henry Stanbrough Health
Officer, Madras do hereby certify that
A. Tolringa Woodhouse, Deputy
Collector, Nellore is in a bad
state of health, and I solemnly
