*Proceedings of the Madras Government, Public Works Department,
24th March 1868.*

No. 528. Read the following letter from the Superintending Engineer, 6th Division, to the Chief Engineer for Irrigation, dated Manamoodoo, 4th March 1868, No. 1,707:—

- 1 Plan of Sluice.
- 1 Sketch of ground.
- 1 Abstract Estimate.

1. I have the honor to forward an estimate of Rupees 1,060 for providing a head sluice for the Veerasholanar, to protect the lands in its neighbourhood

from inundation when the Vennaur is in flood, and when the surplus of the latter instead of passing off by the Pullavanar pours into the Veerasholanar, the mouth of which has been much enlarged. The Veerasholanar irrigates only 126 raylies.

Revenue, Rupees 4,513.

It is not this land only which is injured by the surplus water of the Vennaur, but that of Vellator, Kotangudi, and several other villages.

2. The loss to Government since 1857-58, on account of the inundations, has been as per margin, this represents the actual amount of Government remissions, and the loss to villagers may be estimated at three times that amount, independently of the losses in other years when no remission has been granted by Government. Small sums have also been spent from time to time by the villagers in closing breaches, and owing to their impoverished condition they are unable to contribute to the work proposed.

3. The work has been approved by the Collector, and if sanctioned an allotment should be made for it from the Reserve in 1868-69.

Recommended for sanction, the proposed work being evidently very necessary to effect a proper regulation of the supply of the Veerasholanar. The estimate submitted by Captain Oakes has been increased by Rupees 54 to allow of the wing-wall being strengthened by counterforts. The amount requiring the sanction of Government is, therefore, Rupees 1,114.

(Signed) J. C. ANDERSON, Lieut.-Colonel, R. E.,

FORT SAINT GEORGE,
7th March 1868.

Chief Engineer for Irrigation.

No. 529. ORDER THEREON, 24th March 1868, No. 952.

IRRIGATION, No. 20.

1. The estimate of Rupees 1,114 submitted by the Chief Engineer for Irrigation is sanctioned.

2. The Superintending Engineer of the 6th Division will apply for the necessary funds early in April.
