Proceedings of the Board of Revenue, dated 16th March 1868.

Read the following Proceedings of the Madras Government, dated 12th February 1868, No. 395, Revenue Department:—

No. 233. Read the following Proceedings of the Board of Revenue, dated 11th December 1867, No. 8,016.

1. The Board resolve to submit to Government their Local Fund Budget for 1868-69, accompanied by the usual statements. They regret the delay which has taken place in the submission of this document, which is almost entirely owing to the late dates on which the Budgets of some districts were received, though the imperfections and errors which were found in the Budgets of the districts, rendering necessary a reference to the previous Budgets and Orders of Government, also entailed considerable labour on the Board's Office, and thus incurred the delay in the preparation of the final Budget.

2. The documents submitted are noted below:—

1.—Part I. New Works.

2.—Part II. Repairs with an Appendix.

3.—Abstract Statement No. 1 showing the estimated receipts and charges of the District Road Fund.

4.—Abstract Statement No. 2 showing the estimated receipts and charges of all other Funds, Jungle Conservancy, &c.

5.—Budget of works to be executed from Canal Funds, (Cochrane's and Sadras.)

3. Some of the Collectors have left large balances of funds unappropriated. In these cases, the allotments made for works for the ensuing year have been raised by the Board, in order that they may be more rapidly completed. A few Collectors have entered the proposed expenditure for 1868-69, as considerably in excess of the expected income of the year. In such cases, it became necessary to reduce the allotments made for works, so as to bring the expenditure within the probable receipts.

4. This course was specially necessary in Tinnevelly, where the proposed expenditure was largely in excess of the expected income. In order to bring the outlay within the probable amount of funds available, the Board have deemed it proper to strike out of the Budget the new works noted in the margin.

	Rs.
Road No. 2 from Sattvellipootoor viâ Sembavanaar Covil to Tinnevelly	10,000
Road along the tank bank to Tachanalloor road ...	*3,600
Road from Seevadai to Alankolam through Virakalampudur	20,000
Do. do. to Tenkasy	20,000

5. The Budgets received from Cuddapah and Bellary are also specially imperfect. The works are entered without any reference to previous Budgets, or the Orders of Government. In that from the Bellary District, the figures entered under the columns "Estimate," "Computed expenditure," "Amount required for 1868-69," are uniformly the same, instead of being filled in with reference to the heading of each column. Such serious imperfections show clearly that little or no attention is paid to the preparation of these Budgets by some Collectors; but this can be no longer permitted, and in future all Collectors will be good enough to understand that they will be held personally responsible for the correctness of these documents.

6. The only works struck out of Part I. of the Budgets, received from the Collectors, are those noted in the margin. The first work (in Vizagapatam) costing nearly a lac of Rupees, is scarcely chargeable to the Road Fund. The Board can allow only a grant-in-aid from the Fund equivalent in amount to any contribution that may be raised by the people. The others are Imperial, and are accordingly disallowed.

High level canal between Chittalur	15,000
Improvements to Gundoor and Seetanagaram road.	2,610
Kurnool.	
Road from Lyakoor to Cuddapah	20,000

7. Under the head of "Miscellaneous Public Improvements" in Part I., the allotment of Rupees 10,000, made for digging wells in Cuddapah, has been reduced to 5,000 Rupees. In Bel-

desirable that the Collector should revise the allotments to some extent, with the concurrence of the Superintending Engineer and the Board's approval.

9. The Board have already been requested * to report as to the allotment to be made for "Tools and Plant," with reference to paragraph 15 of the Proceedings of Government in the Public Works Department, dated 20th December 1867, No. 3,950. Provision will also be needed for "Petty Establishments" under the G. O., dated 22nd January 1868, No. 164.

* Proceedings, 8th January 1868, No. 52.

10. The reserve of Rupees 2,23,120 will afford means for meeting these further charges, unless the Board desire in preference to revise their Budget allotments to some extent.

11. The Board's attention was drawn by paragraph 30 of the Order of Government, dated 23rd November 1866, No. 3,213, to the fact that the duty of keeping the roads in repair is almost entirely thrown on the Public Works Department, although as in most cases no professional skill is required in executing the repairs, they might be superintended by the Revenue Department, and they were requested to see to this matter. The Budget now before Government does not show much improvement in this respect. Out of the entire allotment of Rupees 6,14,000 for repairs, the sum of Rupees 3,82,800 is assigned to the Public Works Department, the remainder only being reserved for the Revenue Department. The Government noticed, in reviewing the Budget for 1867-68, that in Nellore, Cuddapah, Bellary, and Kurnool, the repairs were altogether left to the Public Works Department. The same state of things continues in Cuddapah and Bellary and in Nellore, the expenditure of only 1,000 Rupees out of Rupees 13,000 is to be superintended by the Revenue Department. In Kurnool the whole of the repairs are to be made by the Revenue Department, while in Vizagapatam just the reverse is the case, and in many other districts the sums allotted for the Revenue Department are out of all proportion to those proposed for the Public Works Department. The Government notice considerable improvement in three districts in this respect, and they do not see any reason why the same course cannot be followed generally. The Board will be again requested to give their attention to this subject.

12. The Government notice with displeasure the unsatisfactory manner in which the District Road Fund Budgets of Cuddapah and Bellary are stated to have been submitted.

15. The Government must again urge upon the Board the importance of fully utilizing the Jungle Conservancy Fund. There was a large accumulated surplus at the close of 1865-66, and the expenditure in no year up to that period had exceeded Rupees 56,662. The Budget estimates of the three following years provided for the expenditure of large sums, but the report of the expenditure of large sums, but the report of the actual transactions of 1866-67 has not yet been submitted. The Government trust that it may show marked progress, and explain clearly how the money has been laid out. The Government are aware that the expenditure under this head is chiefly in planting topes, but the transactions should have become extensive enough to render a detailed Budget statement desirable. This should show the localities in each district at which new plantations are to be formed; the proposed extent of each plantation; the description of the trees proposed to be planted; the number of wells to be sunk; and the first (estimated) cost of the operations. It should also exhibit, briefly, the cost of establishments maintained for the care of the operations. It should also exhibit, briefly, the cost of establishments maintained for the care of topes already planted, which charge should diminish gradually with the growth of the plantations. The Board will furnish a form to the Collectors.

1. Communicated to all the Collectors for their information and guidance. The several points requiring attention will be noticed seriatim.

2. The attention of Collectors is called to paragraph 4 of the Order, and as required by the Board's Circular Order, dated 9th July 1863, No. 633, the Local Fund Budgets should reach this office on the 15th September of each year *at latest*.

3. As pointed out in paragraph 5 of the Order, no new work can be commenced before the estimates receive sanction, or special permission is obtained in cases in which any deviation from the rule may be deemed necessary.

4. The attention of the Collector of Tinnevelly is called to paragraph 7 of the Order, and he is requested to propose, in communication with the Superintending Engineer of the division, revised allotments for the new works in his Budget.

5. With reference to paragraph 9 of the Order, the Board, as already resolved by them in their Proceedings, dated 13th March 1868, No. 1826, now make a separate allotment for "Tools and Plant" from the next year's Reserve. Regarding "Petty Establishments," the Board have not deemed it necessary to make any special provision, as a sum of Rupees 55,950 is already provided in the Budget under that head. The Collectors will see from the Board's Proceedings, dated 11th March 1868, No. 1761, that the sanction of the Board should be applied for whenever special establishments for works may be required. The wages of petty Maistries and others employed upon works, whether paid daily or monthly, should be charged to the Estimates, and not to Establishments. The amount allotted for Tools and Plant, on account of expenditure to be incurred by the Revenue Department in the several districts, is given below, a separate provision being made elsewhere for the tools required by the Public Works Department for works intrusted to them:—

Districts.	Total proposed expenditure by Revenue Department.	One per cent. for "Tools and Plant" on the total expenditure.
	Rs.	Rs.
1. Ganjam	1,000	10
2. Vizagapatam	3,500	35
3. Godavery	8,000	80
4. Kistnah	51,010	510
5. Nellore	7,000	70
6. Cuddapah	5,000	50
7. Bellary	15,000	150
8. Kurnool	17,200	172
9. Madras	17,310	173
10. North Arcot	10,850	108
11. South Arcot	1,470	15
12. Tanjore	1,67,650	1,676
13. Trichinopoly	1,200	12
14. Madura	93,310	933
15. Tinnevelly	18,490	185
16. Coimbatore	22,570	226
17. Salem	68,270	683
18. South Canara	14,320	143
19. Malabar	29,350	294
Total	5,52,500	5,525

6. The particular attention of the Collectors is requested to paragraph 11 of the Order. The Board are at a loss to understand why the ordinary repairs of roads, which do not require any professional skill, cannot be undertaken by the Revenue Department with a staff of Pygusts and petty Maistries, who have been accustomed to the work, under the orders of the Department of Public Works, and whose pay can be met out of the maintenance allowances, and they now direct that arrangements be made for the execution, by the Revenue Department, of all such works during the ensuing year, reporting the same to the Board, to insure the transfer of the requisite funds from the Public Works to the Revenue Department.

7. As directed in paragraph 15 of the Order, the Board append a form of the Budget for the Jungle Conservancy Fund to be observed in future. Particulars of establishment should be entered fully under each work, and in the case of Topes and Plantations, the extent of each and the description of trees should be given:—

Taluk.	Village.	Number of items.	Description of work.	Amount of estimate.	Amount required for 1869-70.		Remarks and references.
					By Public Works Department.	By Revenue Department.	

8. Collectors are requested to submit to the Board, by the *15th May* 1868, a list, in the accompanying form, of works expected to be completed by the 31st March 1868, but which may remain unfinished at that period, for the completion of which funds may be required during the ensuing official year, so as to enable the Board to allot the requisite funds for them from the Reserve. This list should also contain any new works which may have been sanctioned for execution after the close of the Budget, and for which funds have not been allotted. It is particularly requested that information under the column headed "Remarks and References" may be made complete, in order to facilitate the disposal of the lists in the Board's office:—

Number.	Description of work.	Amount of estimate.	Actual expenditure from the commencement of the work to 31st March 1868.	Amount required for 1868-69.		Remarks and references.
				By Public Works Department.	By Revenue Department.	

9. The actual cash balance of the District Road Funds, on the 1st April 1868, should be ascertained and stated by the Collectors, when submitting the lists of incomplete works. Should in any district, the actual cash balance exceed the amount estimated in the Budget for 1868-69, Collectors will submit fresh proposals for utilizing such unappropriated surplus balances.

10. The Collectors noted in the margin have not as yet furnished their District Maps, though they were specially called for in the Board's Circular Memorandum, dated 24th September 1867, No. 991. The want of these maps is much felt by the Board when disposing of the estimates submitted for sanction, and they request that the maps may be sent without *further delay*.

11. In submitting estimates for new works as well as for repairs, Collectors are requested invariably to note, on the face of those documents, the length of the roads to be made or put in order in miles, furlongs, and yards. Any estimate which does not contain this information will, as a rule, be returned in order that the omission may be supplied.

12. Printed copies of the Local Fund Budgets, as sanctioned by Government, are herewith sent for the information and guidance of Collectors. The expenditure sanctioned by Government for 1868-69, from the several Funds, is shown in the margin. The details are given in Abstract Statements Nos. 1 and 2. The expenditure proposed to be incurred by the Department of Public Works out of the District Road Fund, inclusive of the cost of "Tools and Plant," is Rupees 15,78,377, as hereunder particularized, and the Accountant General is requested to place this sum at the disposal of that Department :—
