4. The excess of wastage in Chinna Ganjam was owing to the salt there having been in store four or five years.
5. The amount of wastage and all particulars connected with the salt administration of this district are at short intervals laid before the Collector by the Deputy Collector in charge of the Salt Department.

From the Deputy Collector of the Kistna district, to the Collector of the Kistna district, dated

2. You are aware how destructive the cyclone of 1st November 1864 proved to the salt in all the cotours in this district; omitting the wastage caused by the storm, the ordinary wastage was not very excessive, as will be seen by the Statement No. 2, which shows the outturn of each individual heap and the date of its storage, &c.
