*Proceedings of the Madras Government, Public Works Department,
1st April 1863.*

No. 8.

Dated 1st April 1863, No. 1,032.

CIVIL WORKS, No. 1.

1. As the Government deem it of very great importance that the scheme for conveying water into Ootacamund

from the high grounds in the direction of Snowdown should be carried out with the utmost possible despatch, and that the reclamation of the swamp at the head of the lake at Ootacamund, as projected by Captain Tulloch, should be vigorously proceeded with, they think it necessary to place these works under an Officer whose particular attention may be given to them under Major Farewell's general direction, and who may be able to utilize upon them to the utmost extent such convict labor as it may be in the power of the Inspector General of Jails to place at his disposal. His Excellency in Council accordingly resolves to appoint Lieutenant H. M. Vibart, of the Royal Engineers, temporarily to this duty under the orders of the Superintending Engineer of the 7th Division, and to request the Inspector General of Jails to take immediate measures for placing at Lieutenant Vibart's disposal the largest number of convicts that can be advantageously employed on the works in question.

2. If the plans, surveys, and estimates of the water supply and reclamation projects are ready, the Superintending Engineer will submit them at once for the orders of Government. If not, Lieutenant Vibart's first duty will be to complete them with all practicable expedition. Lieutenant Vibart may also be employed in preparing a plan for the interval drainage of the swamp, and in carrying out any such plan as may have already been commenced.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.
