ORDER THEREON, 29th May 1869, No. 1,767A.

ACCOUNT, No. 25A

THE papers above recorded give cover to the following Annual Returns, upon which the Government proceed to pass such orders as appear to be called for :—

I.—Of incomplete new works for which no funds are provided in the Budget.

II.—Of new works which have not been commenced, but which are recommended to be undertaken from the reserve.

III.—Of transfers from Budget works for which funds in excess of actual requirements have been provided.

2. The demands for money, as contained in the two former of these Returns, are noted in the following Abstract in comparison with the balance standing to the credit of the Reserve under each of the five Budget heads of service :—

| Nature of demands. | BUDGET HEADS. | | | | | |
|---|---|---|---|---|---|---|
| | Military. | Civil Buildings. | Agricultural. | Communications. | Miscellaneous Public Improvement. | Total. |
| | RS. | RS. | RS. | RS. | RS. | RS. |
| For incomplete new works, ... ... | 47,758 | 33,513 | 1,06,412 | 1,21,967 | 10,598 | 3,20,248 |
| For new works estimated at more than 2,500 Rs. each, ... | 1,50,876 | 85,200 | 5,680 | 89,760 | 20,000 | 3,51,516 |
| For do. at less than do., | 57,221 | 41,417 | 10,895 | 4,900 | ..... | 1,14,433 |
| Total, ... | 2,55,855 | 1,60,130 | 1,22,987 | 2,16,627 | 30,598 | 7,86,197 |
| Balance of Reserve., | 71,120 | 95,967 | 2,19,957 | 12,990 | 4,000 | 4,04,034 |
| Difference, ... | —1,84,735 | —64,163 | +96,970 | —2,03,637 | —26,598 | —3,82,163 |

3. It will be seen from the above that under "Military" and "Agricultural," the grants for which cannot be transferred to other heads, the demands are, in the one case, in excess of the available funds by Rupees 1,84,735, and, in the other, fall short of the balance standing to the credit of the Reserve by Rupees 96,970. In order to provide the money which is required for pressing new works under "Military," the Government, taking advantage of the excess assignments in the Budget for other works of the same class, have transferred those excesses to works for which *no* provision has yet been made, and, in these cases, it has not been possible to adopt the proposals made by the Superintending Engineers. The demands on account of "Agricultural" works have been fully met, and there is still an available balance of Rupees 96,970, which His Excellency in Council will be prepared to place at the disposal of the local Officers on sufficient reason being shown for supplementing existing assignments, or on plans and estimates being submitted for entirely new works.

4. With regard to the requirements under heads other than "Military" and "Agricultural," the Abstract appended to paragraph 2 shows that the available funds fall short of the demands by the sums noted below :—

| | | |
|---|---|---|
| Civil Buildings, | ... ... ... ... | Rupees 64,163 |
| Communications, | ... ... ... ... | ,, 2,03,637 |
| Miscellaneous Public Improvement, | ... ... | ,, 26,598 |

5. The demands under "Civil Buildings," as given in this Abstract, do not contain the requirements for Jails, the sums applied for for which, amount in the aggregate to Rupees 12,20,965. A statement of these works will be furnished to the Judicial Department, with a view to application being made by that department to the Government of India for a special grant, in pursuance of paragraph 10 of Public Works letter to the Government of India of the 15th December 1868, No. 3,914. It is absolutely impossible to provide any portion of the money required for these works from the ordinary assignment for the year, and the balances standing to the credit of the Reserve under "Civil Buildings," "Communications," and "Miscellaneous Public Improvement" do not admit of more than a scanty provision for the prosecution of works of those classes which were left incomplete on the 31st March 1869, and for which no allotments are made in the current year's estimate.

6. His Excellency the Governor in Council resolves to sanction the following appropriations for incomplete works, and to request the Superintending Engineers to expedite the submission of the estimates* for all such works as have not yet received the sanction of Government,

* As per list attached.

| District. | Work. | Amount of estimate. | Number and date of sanction. | Expenditure up to 31st March 1869. | Balance of estimate. | Amount allotted. | Head of Reserve from which the allotment has been made. |

| Do. ... | Alterations and improvements to the present Armoury in the Arsenal at Bellary. | 9,550 | Do., No. 2,576, dated 12th August 1868. | 7,750 | 1,800 | 1,800 | Do. |

7. In the foregoing appropriations all demands of less than 500 Rupees have been omitted, with reference to paragraph 9 of G. O. of the 29th May 1868, No. 1,715.

8. In some cases, Superintending Engineers have applied in Statement No. I. for additional grants for *Budget* works. As these works have been provided with allotments, they should not have been entered in that Return.

9. No portion of the estimate for putting up Lightning Conductors to Military Buildings at Ramandroog having been expended up to 31st March 1869, the work should have appeared in Statement No. II. submitted by the Superintending Engineer of the 3rd Division. As regards the Terriote road in the Wynaad which appears in Statement No. I. of the Officer in charge of Public Works Operations in that Province, the Government observe that no estimate has yet been received for that work. The item should, therefore, have found a place in Statement No. II.

10. The Superintending Engineer of the 6th Division applies for an allotment of Rupees 4,852 to admit of the re-payment to the District Road Fund of an equivalent amount spent last year from that source on the Travellers' Bungalow at Tanjore. As this outlay has been written back in the Controller's accounts for March from the debit of District Road to that of Imperial Funds, no grant in the current official year is necessary.

11. The Superintending Engineer of the 5th Division enters in Statement No. I. a demand of Rupees 5,964 for the completion of the bridge over the Pennar on the road from Oossoor to Malloor. As this road has been declared to be a local line, all outlay upon it from Imperial Funds must cease after the 31st March last, in accordance with paragraph 12 of Revenue Proceedings of the 11th November 1868, No. 2,831. This remark applies to the road from Aska to Pippulponka in the Ganjam District, for which the Superintending Engineer of the 1st Division applies for Rupees 7,261, which is the unexpended balance of the estimate of Rupees 47,690, sanctioned in the orders of the 21st January 1861, and 24th April 1865, Nos. 236 and 1,125, respectively.

12. The following grants are sanctioned for entirely New Works under "Military" and "Agricultural":—
