*Proceedings of the Madras Government, Revenue Department,
13th August 1869.*

3. The Superintending Engineer says that metalling will be postponed, and estimates for the masonry works will be submitted to Government separately. The reason for this is probably that half the cost of the works is to be met from Imperial Funds, but this is no reason why the estimate should not be submitted through the Board, and it is very desirable that in all such cases they should know what the aggregate cost of the road will be.

4. With regard to the Superintending Engineer's statement, that he has been prevented from preparing estimates because his predecessor's application for funds for a general survey had not been sanctioned, his attention will be called to Board's Proceedings, dated 16th July 1869, No. 5,066.

5. The Superintending Engineer should report as soon as possible from what savings the cost of this work is to be met.
