Letter from E. G. R. FANE, Esq., Collector of the Madras district, to the Acting Secretary to the Board of Revenue, dated Sydapet, 10th May 1869, No. 140.

I HAVE the honour to forward, herewith, the statement called for in the Board's Proceedings of the 24th March last, regarding the aggregate amount of expenditure incurred on Famine Works up to the 31st March last, during the years 1866-67, 1867-68, and 1868-69.

2. The Board will perceive that a sum of Rupees 55,279 was expended upon Irrigation works, and that a further sum of Rupees 26,544 only is required to make them all complete.

3. The amount expended on ponds and wells was Rupees 12,818, a further allotment of Rupees 2,174 is required to complete them also, making a total under both heads of Rupees 28,718.

4. The total expenditure upon roads, estimated at Rupees 4,83,195, was Rupees 97,229, and Rupees 3,27,851 are still required to mage them complete.

5. The amount required to complete the Irrigation works and the ponds, we shall, I trust, be able to allot either this year or next year from the ordinary Public Works Budget.

6. The sum required to complete the roads being large, it will take, I fear, some years to find, as the roads are all, with the exception of two or three salt once, local lines, to be provided for from Local Funds which in this district are out of all proportion to the requirements.

N. B.—The amount shown as expenditure in this statement will not tally with that exhibited in the Cash account sent to the Accountant General exhibits the actual amount disbursed from the Treasury, whereas that sent to the Accountant General's Office up to the 31st March 1869. The reason of the difference is that the statement entered in the present statement is the actual value of work completed up to 31st March 1869.

STUDIED, 10*th May* 1869.

From J. D. ROBINSON, Esq., Collector of North Arcot, to the Acting Secretary to the Board of Revenue, dated Arugonda, 3rd May 1869, No. 126.

ADVERTING to paragraph 4 of the Board's Proceedings, No. 2,048, dated 24th March last, I have the honor to submit, in the form therewith received, a Statement showing the expenditure incurred in this district both by the Public Works and Revenue Departments from Special Funds during the official years 1866-67, 1867-68, and 1868-69, under the three several heads, "Communications," "Irrigation," namely, Tanks, etc., and "Miscellaneous," namely, Wells and Ponds.

2. COMMUNICATIONS.—The figures entered in the column headed "To complete" are those shown in the Statement forwarded with my letter, No. 7, dated 15th January last. The exact amounts required for this purpose shall be exhibited in the report called for by Government in their Order, No. 977, dated 9th April 1869.

3. IRRIGATION AND MISCELLANEOUS.—The works executed under these heads have all been finished with the exception of a few items. I have called on the several Tahsildars to report what sums will be required for the completion of those works which remain incomplete, and shall submit my report in due course.

4. The information required in paragraph 5 of the Proceedings under reply is given in the Statement.

5. As these Proceedings only reached me on the 16th April 1869, and the return therein called for has involved much labor and research, I was not able to get it ready by the date fixed by the Board for its submission.

MADURA,
15th July 1869.

(Signed) J. R. ARBUTHNOTT,
Officiating Collector.

From J. R. ARBUTHNOTT, Esq., Officiating Collector of Madura, to the Acting Secretary to the Board of Revenue, dated 20th July 1869, No. 246.

With reference to the Proceedings of the Board of Revenue, dated 17th July 1869, noticing the delay that has taken place in submitting an account of the outlay on famine works in this district for 1866-67, to 1868-69, I have the honor to state that the first communication received on the subject, only reached me on the 28th May, when on circuit. I then gave orders for the collection and compilation of the required information.

2. This process necessarily took some time, as accounts had to be obtained both from the Public Works and Revenue Departments. The required Return was despatched from this Office on the 15th of July. In conclusion, I have the honor to request the Board, with reference to their Proceedings under reply, to submit this explanation for the information of Government.

The sum of Rupees 28,145, is the total expenditure actually incurred on Relief works in the years 1866-67 and 1868-69. Of this sum Rupees 478 is the private contribution and the balance Rupees 27,667 is the sum drawn out of Rupees 50,000 and 30,000 allotted for this district for the years above alluded to. The Divisional Officers under whose supervision these works were carried out, state that all the works have been completed and have refunded the unexpended balance which were in their hands on the 31st March 1869. Consequently no provision has been made in this Statement either to complete any of these works or to admit of discontinuance without loss. A sum of Rupees 140-10-9, the defalcations appertaining to the Famine Fund has been ordered by the Board, in their Proceedings, dated 14th April 1869, No. 2,535, to be written off; and the Accountant General has been applied to, for his orders, as to the adjustment of the above sum in the accounts.

SALEM,
26th May 1869.

(Signed) C. N. POCHIN,
Collector.

From E. C. G. THOMAS, Esq., Acting Collector of Malabar, to the Acting Secretary to the Board of Revenue, dated Calicut, 2nd June 1869, No. 143.

WITH reference to the Board's Proceedings of the 24th March and 15th May 1869, Nos. 2,018 and 3,068, I have the honor to state that sanction to the extent of Rupees 6,000, was accorded in Government Order, dated 7th August 1865, No. 1,931, for Relief works in this town, and of Rupees 3,000, in Government Order, dated 21st August 1865, No. 2,153, for those in Cochin. Of the former, Rupees 3,000 were re-payable to Government, and the Government grant, therefore, for Calicut Relief works should be taken only at Rupees 3,000. Of the latter, Rupees 1,000 only were debited in our Treasury Accounts, the remaining Rupees 2,000 appears to have been accounted for by the Public Works Department, direct to the Controller.

2. In the Statement furnished to the Board by the Accountant General, only Rupees 4,000 is shown against this district, as expenditure incurred on account of Famine Relief works.

*Vide* his letter recorded in Board's *Proceedings*, dated 6th May 1869, No. 3,066.

He has probably taken into account only the 3,000 Rupees given to the Calicut Municipality as above pointed out, and the 1,000 Rupees debited in this District Accounts, on account of works in Cochin.

3. The amount for Calicut has been expended on the Canal near the Big bazaar in the heart of the town, and that for Cochin on certain roads and bridges within that town. An account of the expenditure is submitted in the form prescribed.

4. It will be seen that the entire amounts of the estimates in both cases have been expended, and no further amounts required in this district, as contemplated in paragraph 5 of the Board's Proceedings of the 5th ultimo, above quoted.

From E. C. G. THOMAS, Esq., Acting Collector of Malabar, to the Acting Secretary to the Board of Revenue, dated Calicut, 2nd June 1869, No. 143.

With reference to the Board's Proceedings of the 24th March and 5th May 1869, Nos. 2,018 and 3,068, I have the honor to state that sanction to the extent of Rupees 6,000, was accorded in Government Order, dated 7th August 1866, No. 1,931, for Relief works in this town, and of Rupees 3,000, in Government Order, dated 21st August 1933, No. 2,153, for those in Cochin. Of the former, Rupees 3,000 were re-payable to Government, and the Government grant, therefore, for Calicut Relief works should be taken only at Rupees 3,000. Of the latter, Rupees 1,030 only were debited in our Treasury Accounts, the remaining Rupees 2,000 appears to have been accounted for by the Public Works Department, direct to the Controller.

CALICUT,
2nd June 1869.

ORDERED that the detailed Statements of works executed from Famine Funds, received with the foregoing letters, be submitted to Government, with reference to their Proceedings, dated 1st and 22nd May 1869, Nos. 1,200 and 1,449, respectively.

2. The accompanying Statements marked A and B, were prepared in this Office from the Statements received from the Collectors; the former exhibiting in one view the expenditure incurred in the three years noted in the margin, classified under the several heads of Communications, Irrigation works, Wells and Ponds, and Miscellaneous, and the latter, showing the expenditure in 1868-69, in the details required by the Government of India, in their letter, dated 26th April 1869, No. 316A, communicated in the Proceedings of Government, Revenue Department, dated 22nd May 1869, No 1,449.

1866-67.
1867-68.
1868-69.

3. The total expenditure in the three years, amounted to Rupees 12,83,188, as exhibited in the subjoined Abstract:—

| | 1866-67. | 1867-68. | 1868-69. | Total. |
|---|---|---|---|---|
| | Rs. | Rs. | Rs. | Rs. |
| Communications ..... | 4,13,803 | 1,15,964 | 3,24,036 | 8,53,803 |
| Irrigation works..... | 88,142 | 30,228 | 1,30,362 | 2,48,732 |
| Wells and Pond ..... | 17,236 | 19,829 | 47,279 | 84,344 |
| Miscellaneous ..... | 64,755 | 24,008 | 7,546 | 96,309 |
| Total ... | 5,83,936 | 1,90,029 | 5,09,223 | 12,83,188 |

4. The allotments sanctioned for the several districts amount to Rupees 11,05,372, besides the discretionary authority conveyed to Collectors to meet emergent demands. These allotments, with the orders sanctioning them, are entered in Statement A, for convenient reference. In many cases the works were undertaken by the Collectors without any estimates for them having been previously sanctioned, as no time could be lost, and the works had to be commenced at once to find employment for the destitute; and in all such cases, the actual expenditure has been shown in the column "Amount of Estimate."

5. The total expenditure in the years 1866-67 and 1867-68, as entered in this Statement, will be found to differ from the Statement furnished by the Controller of Public Works Accounts to Government, under date 1st June 1869, and this is mainly owing to only a portion of the expenditure on Famine Relief Works, namely, that incurred by the Officers of the Revenue Department having been exhibited in the Controller's Statement; whereas, in their Statement now submitted, the entire expenditure both by the Revenue and Public Works Department, is shown.

6. In the detailed Statement B, the particular works on which expenditure was incurred in 1868-69, are given with reference to the orders of Government, dated 22nd May 1869. Numerous works, consisting principally of wells and ponds for drinking purposes, were executed for small sums, and the exhibition of each of these petty works in the Statement would make it a very bulky document. The Board have, therefore, shown the cost of such works in a lump, as works costing less than Rupees 250 each.

7. The amount estimated by the Collectors, as required to complete the works already commenced, is Rupees 6,62,441, and the sum required to admit of discontinuing them without loss is Rupees 27,000. The Government are aware that applications for funds to complete some of these works have been rejected by them, on the ground that the necessity for affording employment to the able-bodied poor has long since passed away, and they have directed that all further expenditure on these incomplete works should be incurred from the District Road Fund; undesirable as it is to leave these works in their present incomplete state, it appears that neither Imperial nor Local Funds can be spared to finish them at present. The Board hope, however, in a few years to provide the requisite amounts from Local Funds, and in the meantime, efforts will be made to provide for such

expenditure as will prevent the results of money already spent from being lost. Considering this prospective demand on the fund, and the heavy and increasing maintenance allowances which have to be annually provided for, the Board are convinced that no portion of the expenditure already incurred from Famine Funds can be borne by the District Road Fund. The Government are aware that nearly the whole of the available funds under the District Road Fund have been already allotted for expenditure in the current year, and if, as the Government of India wish, any portion of the expenditure is to be debited to the District Road Fund, several of the works now in progress will have to be abandoned. For these reasons, the Board have thought it unnecessary to indicate in Statement B, the portion of the expenditure which should be debited to the District Road Fund.

8. In some districts, expenditure was incurred in 1868-69, for Relief-houses, and is included by the Collectors in ther Statements. The Board have, however, excluded this outlay from the Returns prepared by them, as they are intended to show only the expenditure on public works. The Government expenditure on Relief-houses, as given by the Collectors, is shown in the margin.

9. The delay in the submission of these Statements is, as the Board have already reported, owing to the non-receipt of the Statements from Madura, which reached this Office only on the 19th instant. The letter from the Acting Collector of Madura, containing his explanation of the delay, is submitted for the information of Government.
