*Proceedings of the Madras Government, Revenue Department,
20th August 1869.*

No. 308. Read the following Proceedings of the Board of Revenue, dated 27th July 1869, No. 5,481:—

WITH reference to paragraph 15 of Government Order, Revenue Department, dated 16th March 1869, No. 711, the Board resolve to submit, herewith, for the approval of Government, a detailed Budget of proposed expenditure in 1869-70, out of the Junglo Conservancy Fund, prepared agreeably to the instructions conveyed in paragraph 15 of Government Order, dated 12th February 1868, No. 395.

2. From the Abstract Statement appended at the foot of the Budget, it will be observed that the total available assets of the fund, including the actual balance on the 1st April 1869, are Rupees 2,85,480, and that the proposed expenditure is Rupees 1,65,640, leaving an unappropriated balance of Rupees 1,19,840.

3. It will be observed that the proposed expenditure in the present Budget differs in the districts noted in the margin from that given in Abstract No. 2, which accompanied the District Road Fund Budget. The difference is owing to the omission in the present

Nellore.	Trichinopoly.

detailed Budget of certain charges which have been considered by the Collectors as unnecessary.

4. In the Tanjore and Coimbatore Districts, the proposed expenditure exceeded the available assets, as shown in the margin. The Board have, therefore, been obliged to reduce the expenditure so as to bring it within the available assets.

Districts.	Assets.	Proposed expenditure.	Balance.
Tanjore.	2,600.	2,200.	200.
Coimbatore.	2,900.	3,750.	750.

5. The present Budget being the first of its kind, the Board regret that it has not been possible to make it quite as complete as such Budgets should be. The defects will be remedied in future Budgets.

6. On the receipt of the sanction of Government to the Budget, the Board will have it printed and circulated to all Collectors, and request the Accountant-General to place the requisite Funds at the disposal of the Public Works Department.

No. 309. ORDER THEREON, 20th August 1869, No. 2,383.

Accounts.

THE Budget-Estimate for the Junglo Conservancy Fund for 1869-70, submitted with the Proceedings of the Board of Revenue, above recorded, does not

contain information on the several points specified in paragraph 15 of the order of Government, dated 12th February 1868, No. 395, except in the case of Cuddapah, South Arcot, and once or two other districts. But under the explanation given by the Board, viz, that the Budget being the first of its kind it has not been possible to make it as complete as it should be, it is generally approved. The Government must, however, remark that they do not see any utility in printing this imperfect

and bulky statement as proposed by the Board. The portion relating to each district may be furnished to the Collector in manuscript, if his original list has been revised by the Board.

2. There are a few other points which require notice. In the Godavery District provision is made to the amount of Rupees 400 as "Commission for the collection" of Rupees 1,000. This should have been explained, as the proportion of the commission to the amount to be realized is clearly incorrect. The total proposed expenditure in the Kistna District is Rupees 18,300, and of this amount the large sum of Rupees 14,070 is to be transferred to the Public Works Department under the orders of the Board of Revenue. This amount is stated to be required for the "maintenance" of nursery gardens and avenue trees. The charge of the avenues is vested in the Collectors, and the assistance of the Public Works

Vide Standing Order, No. 62.

Departments should not be sought, except
"for the planting of new avenues and

the watering of the trees for the first one or two years." The Board will accordingly be requested to procure full details of the proposed expenditure by the Public Works Department, and will ascertain that the existing orders are maintained.

3. The remarks "to be given on contract for more than one year" and "for one year and under" opposite to some of the entries in the Nellore portion of the Budget, should have been explained. The provision for establishment in the same district amounts to the large sum of Rupees 15,170. Of this amount, the sum of Rupees 4,720 is for Overseers and Inspectors. There is nothing to show what expenditure they are expected to superintend and account for. There is also a Clerk on Rupees 20 per mensem debited to "Contingencies." The Board will be good enough to call for information in regard to these establishments, and will report whether they have received sanction under Clause IX. of the Jungle Conservancy Fund Rules.

4. The sum (Rupees 4,300 out of 4,800) proposed to be placed at the disposal of the Public Works Department in the Trichinopoly District, is also large. The formation of small "Plantations" and "Topes" is proposed to be entrusted to that department, an arrangement which was not intended to be made. The sum of Rupees 1,000 to be expended by the Department Public Works in Tinnevely should also be explained.

5. The total amount of expenditure proposed, is Rupees 1,65,641 against the available sum of Rupees 2,85,480. The unspent balance will be Rupee 1,19,840.

2. There are a
few other points
which require notice.
In the Kodak District
provision is
made to the amount
of Rs 400 as a provis-
ion for the collec-
tion of Rs 1000. This should
have

13
have been explained, as the pro-
portion of the commission to the
amount to be realized is clearly
incorrect. The total proposed
expenditure in the Kodak
District is Rs 1835, and of
this amount the large sum
of Rs 14,070 is to be trans-
ferred to the P. W. Department
under the orders of the Board
of Revenue. This amount is
stated to be required for the
"maintenance" of many pro-
jects and avenues trees. The
charge of the avenues is vested
in the collector and the
assistance of the P. W. De-
partment should be sought
except for the planting of
new avenues and trees.
